5 LAW AGENCIES PREPARE FIGURES ON WILD CHASES

Statistics Will Be Submitted Wednesday Morning Before Joint Conference of County and City Officials Seeking 'Cure.'

PENALTY IS ASKED FOR GUN WIELDER

Woman Demands Conviction of Person Who Fired Shot as Aroused Citizenry Urges Action.

Officials of five law enforcement agencies last night began summarizing results of their investigation of alleged wild, police chases of misdeed offenders through crowded Atlanta streets.

These statistics will be submitted at 11 o'clock Wednesday at a joint conference of county commissioners, Chairman G. Dan Bridges, of the council police committee; Chief M. A. Hornsby, of the city police; Chief George Mathieson, of the county force, the county police committee of the Fulton grand jury, and Solicitor General John A. Boykin.

This conference was called at the request of Commissioner George F. Longino following a special session of the board of commissioners yesterday. It is a result of continued agitation on the part of citizens who are protesting the practice of police chases in crowded sections which endanger the lives of innocent persons.

"Tops" Are Urged.
Chief Hornsby last night renewed his request that citizens aid in ending wild automobile chases by "tipping" police on lottery and liquor sources.

A probe of the chase Easter morning in which a woman narrowly missed being struck by a bullet which crashed into her home was begun yesterday by DeKalb county police. Fulton county police were engaged in the chase but it ended in DeKalb county.

At the conference the wild chases will be discussed and plans will be adopted to eliminate them, Longino said.

"The commission wants to uphold the splendid record of the county police, but does not want to jeopardize the safety of citizens," Longino declared.

Accord Desired.
"The commissioners do not want the impression to get out that the county police are trying to police Atlanta. We want the county police to work only in the strictest accord with the city police."

Reason for the delay in calling the conference was given as the commissioners were waiting for Edwin F. Johnson, chairman of the police committee, to return to the city. He will be back next week.

Investigations of the alleged wild chases have been begun by the grand jury, the county police, the city police, the DeKalb police and the solicitor general's office. Reports from each of these, with the possible exception of the grand jury committee, will be submitted at the conference Wednesday, it was said.

Certain groups of citizens Monday prepared figures showing where the city police had arrested 100 per cent more liquor and lottery offenders wild, random chases.

County police, it was understood, yesterday were preparing a similar

17 Cents for Cigarettes Goes in Effect Today

Georgia cigarette smokers today will reach for two extra pennies with which to buy packs selling for 15 cents yesterday and prior to passage of the general assembly act doubling the cigarette tax.

The act puts a 3-cent tax on packages of 20 or 12 and 2 cents on packages of 10, effective today. Grocery stores, heretofore selling cartons of 10 packages as low as \$1.35, will step up prices to \$1.50, \$1.55 and \$1.60. These prices are on a par with cigarette prices in South Carolina, but considerable more than those in effect in Florida where bargain rates of two packs for 25 cents are offered.

The new tax on beer and wine, also effective today, will be collected from wholesalers, manufacturers and jobbers, and will not concern retail dealers. However, retail dealers today will have to report the stock they have on hand of either drink and pay the new taxes.

Dealers will be required to report their beer stocks and pay the difference between the old \$1.25 a barrel rate and the new \$2.50 levy. In the case of wine, retailers will have to secure revenue stamps from the State Revenue Commission and attach them to all wine containers before selling them.

SENATOR ASSAILS JUSTICE'S POWER

Schwellenbach, Backing Court Plan, Cites 'Dictatorship' at Hearing.

By the Associated Press.

WASHINGTON, March 31.—Two administration senators complained today that power over fundamental economic and social legislation now rests upon the vacillating judgment and human frailty of a single judge of the supreme court.

Minton, of Indiana, a defender of the Roosevelt court legislation, and Schwellenbach, of Washington, friendly but uncommitted, told the senate that the court's reversal on the issue of minimum wage laws showed Asso-

ciate Justice Roberts to hold too much power. Schwellenbach called it the "power of a Mussolini."

In addition, Minton asserted Chief Justice Hughes had "not forgotten the issue that comes before the court will find four justices definitely hostile, four will interpret the constitution in the light of changing conditions, while one justice moves around we know not where."

At another point in the senate, Sen-

Champion 'Thumper' To Write Series on Experiences of Tour.

Arthur Cain, who returned Tuesday from a two-year hitchhiking tour of the world, will write a series of stories, recounting some of the startling experiences of his journeys which could not be told in the letters he wrote while still away from home. The first of the series is presented today, with others to follow in accelerating suspense and mounting excitement.

By ARTHUR CAIN.

The glad tidings today, my sweets, are the two-fold facts that Cain shall continue to pester you with accounts of himself and the merrie mad world and that the giddy whirl of homecoming is still in swing. Having wrapped the Cain tummy around numerous lunches, dinners and three breakfasts during the past 24 hours, we shall unbutton our vest and get loquacious. So the worst is yet to come. Adjust yourself to the new regime.

Foremost in our mind is still the gossip that Atlanta is the swellest place and has the nicest citizens and that Cain will be the fair-haired boy at least until he bares his soul and tells all. And, frankly, the "all" is practically astonishing. I only believe it myself in glib moments. But it's true.

There's a matter of discussion at this point. We shall insist upon your moral protection at any rate. Not wishing an aftermath of coppers and constables to be jumping down our neck and not wishing to be too monotonous in our future itinerary of famous battles, we request co-operation. In other words, if a guy with big feet and a bulbous nose inquires for Cain, well, he just ain't here. Thanks.

That being cleared up, we shall proceed straightaway to arouse your curiosity concerning the certain things

DOOM OF FRANCO LOOMS AS REDS CRUSH FASCISTS

Terrific Rebel Counter-Attack Reported Repulsed on Basque Front With 2,000 Insurgents Killed or Left Wounded.

FATE OF REVOLT DEPENDS ON DUCE

100 Soldiers Executed at Ceuta After Court Martial as Result of Revolution in Morocco Area.

(Copyright, 1937, by United Press.)

GIBRALTAR, Thursday, April 1. New reports of crushing Spanish Rebel defeats poured in from all sides today, indicating that Francisco Franco's rebellion may be doomed unless he obtains further foreign aid.

Loyalist militia reportedly advanced 12 miles toward Burgos, insurgent headquarters northwest of Madrid, capturing a number of towns, including Sargentes.

A terrific Rebel counter-attack was said to have been repulsed on the Basque front at El Ceuta and Elbar, with 2,000 Rebels killed or wounded.

Latest news from Pozoblanco in Cordoba province said the Loyalist advance swept toward Belmez after engulfing El Soldado. A general retreat to 12 miles west of Pozoblanco was reported. Rebel armies were fleeing in disorder as Loyalist marched on Penaroya, it was said.

Fate of Duce's Hands.
The fate of the Rebels appeared to depend on whether Premier Benito Mussolini would aid them further.

The Spanish Rebel generalissimo, striking without mercy to put down revolt within his ranks, met with crushing defeats on almost every front as the Loyalists—quick to seize their opportunity—fought with new fury.

Victory was reported at night—Rebel, Loyalist and neutral—indicated to military experts that unless Mussolini sends thousands of fresh Italian troops into Spain the Rebel cause will be lost.

Franco will lose his chance to be dictator of Spain and the ambition of Germany and Italy to set up a puppet Fascist regime at the "backdoor" of the Mediterranean bulwark so vital to Democratic France and England will be shattered.

Shake-up Ordered.
At Algeciras, Rebel naval base across the Bay of Gibraltar and a "hotbed" of the Rebel revolt, Franco ordered a shake-up of the entire headquarters staff.

High officers were stripped of their commands and sent to various fighting fronts.

Franco was reported to have arrived at Ceuta by airplane to investigate the causes of the mutiny.

Arabs, arriving at Casablanca, French Morocco, said 100 soldiers were executed at Ceuta after a court-martial.

PWA STORY FALSE, RUSSELL ASSERTS

Senator Characterizes Statement Credited to Him as 'A Fabrication.'

By GLADSTONE WILLIAMS.

WASHINGTON, March 31.—A vigorous denial of statements attributed to Senator Russell in an Atlanta afternoon newspaper, that he had urged abandonment of a large number of Georgia PWA projects was made here tonight by the senator.

Senator Russell characterized the statements as "a fabrication of the whole cloth" and said:

"I have made no such statement to anyone, and it is inconceivable to me how anyone could be so grossly misquoted. Any suggestion that I am urging abandonment of PWA projects in the state is ridiculous.

"As a matter of fact, I am urging the adoption of more projects of the kind, to whom the purported statements were read, expressed surprise, saying:

"I didn't see the story. But we're pushing to get our school projects nationally might 'take matters in its own hands' and halt industry throughout the country if 'justice is not done' Mooney."

'Gone With the Wind' Director Studies His Staircases

A film Scarlett O'Hara may come down a stairway like this when "Gone With the Wind" is transferred to the screen. Pointing up the stairway, in the home of H. Cobb Caldwell on Peachtree road, is George Cukor, motion picture director. Wilbur G. Kurtz, prominent Atlanta artist and historian, who will aid in technical details of the film production, is at the right. While Hobe Erwin, scenic designer, center, shows keen interest in the stairway. The Hollywood men are in Atlanta absorbing "southern atmosphere."

\$60,000 MONTHLY ASKED FOR RELIEF

County Fathers Agree Tentatively to Program Suggested by New Board

Relief appropriations of \$60,000 monthly during 1937 from the city and county on a 50-50 basis were requested by the newly appointed five-man Fulton Board of Public Welfare at its meeting last night.

County commissioners, meeting with the board, tentatively agreed to appropriate \$30,000 monthly to the relief agency and board members will confer Monday with the mayor and city council asking their co-operation and participation.

Needy persons temporarily will continue receiving relief under the present administrative setup which was approved by the retiring 12-man board, it was decided. All welfare work is eventually to be centralized under the new board and county appropriations for all forms of public welfare will be administered under direction of the five-man board.

\$4,000 Balance March 31.
Frank Miller, executive director of the welfare department, announced the department had a balance of \$4,000 on March 31. The county appropriated \$17,500 last month and the city \$12,500.

The four members of the board present agreed not to launch the intricate campaign for qualifying all persons eligible under the state and federal social security acts until the \$60,000 per month necessary for continued operation of the departments was assured. It was anticipated at least 10 per cent of this will be used for administrative costs and that the figure would probably rise as more and more persons sought to qualify for old-age pensions, blind relief, or aid to the dependent children.

Roy Warren, appointed to the board yesterday by the county commissioners to succeed T. Barton Baird.

California Assembly Asks Mooney Pardon

SACRAMENTO, Cal., March 31.—

The state assembly today adopted a resolution asking Governor Merriam to pardon Tom Mooney.

The vote was 42 to 27.

Concurrence by the senate is necessary to give force to the resolution.

Mooney is serving a life sentence for the 1916 San Francisco Preparedness Day bombing which took 10 lives.

Observers said the senate's acceptance was doubtful.

Assemblyman Paul A. Ritchie, author of the resolution, asserted labor nationally might "take matters in its own hands" and halt industry throughout the country if "justice is not done" Mooney.

Hartsfield Asks for Ban on Incorrect 'Youall' Usage.

By FRANK DRAKE.

There will be no "youalls" addressed to a single individual in the movie version of "Gone With the Wind," if Mayor Hartsfield's wish comes true.

The city's chief executive waxed emphatic on the subject of southern dialect just before leaving Atlanta for a vacation in Florida.

"I certainly hope directors of the picture made from this book will not let the characters speak the negro dialect like some actors I've heard attempting to talk with a southern drawl," he asserted.

He pointed out that the southern drawl is one way of speaking and the dialect used by negroes is quite another.

"The people in Atlanta in the days about which Margaret Mitchell wrote her book did not talk with the ultra-broad brogue," he declared.

Southerners speak more slowly than do residents of the north, east and west, and they do not roll their "r"s nor do they clip words and syllables short. But neither do they say "Dis heah flo ash is hahd. You all mus' set on it sumtime."

Such dialect comes from the negro inhabitants of the south, but even the members of this race do not habitually address one person as "you all." That phrase means several persons in a group and is inclusive. Yo: all know the glove fitted the right hand and

HIGH COST PERILS UNDERPASS PLANS

Rights of Way Values Prevent Marietta-North Avenue Job, Says Mayor.

Prohibitive costs of acquiring rights of way for the North Avenue-Marietta street underpass have virtually killed any chance of constructing this project, Mayor Hartsfield announced yesterday.

Though original estimates for obtaining the rights of way totaled only \$72,000, Hartsfield said he was informed increased prices and a change in plans for the project would run the cost to more than \$300,000.

The city and county had agreed to share the cost of rights of way equally, when the cost was figured at \$72,000.

Hartsfield said the city could not afford to appropriate anywhere near \$150,000 as its part of the cost, because it had been unable even to find \$35,000 as needed under the original estimate.

"I cannot see how we will be able to get the rights of way and it seems that this project is lost, at least temporarily," he declared.

Father of Model, 20, Is Questioned In Easter Sunday Triple Slaying

NEW YORK, March 31.—(UP)—

A man's gray suede glove—found in the bedroom where Veronica Gedeon, pretty 20-year-old model, was slain and flung naked on a bed—was taken to the police laboratory tonight as a possible clue in the triple Easter murder.

Police continued to question Joseph Gedeon, whose wife, Mary, and Frank Byrnes, a bartender at the exclusive Racquet and Tennis Club, came home sometime between 11 p. m. and 3 a. m. and was stabbed in the head 11 times with some instrument like an ice pick or an awl. Veronica, who had been out on a date, drinking gin and dancing, arrived home at 3 a. m.—tipsy, according to the findings of the autopsy. She was strangled, stripped of her clothing and thrown on the bed under which her mother's body was lying.

"Frenchy" Gueret, a chauffeur who was friendly with the Gedeon family, was questioned again today and again released.

Miss Jean Karp, also a model and a friend of Veronica, returned to the police station, but left a short time later.

Medical examiners said today it was possible, although improbable, that the three murders could have been committed over a period of 62 hours. The condition of the bodies—particularly the advancement of rigor mortis—indicated a much shorter time, however.

COMMITTEE OF 16 TO RESUME TALKS THIS AFTERNOON

Question of Higher Wages Is Said To Be Only Remaining Stumbling Block; Vacation of Two Weeks With Pay Asked.

ALABAMA MINERS TO BE AFFECTED

United Mine Workers Are Also Demanding 30-Hour Work Week and 200 Work Days in Year.

NEW YORK, March 31.—(UP)

More than 300,000 soft coal miners in Appalachian mines and 100,000 others in Indiana, Alabama, Wyoming and Colorado will suspend operations tomorrow as a result of failure of a conference of mine operators and United Mine Workers of America to reach agreement on a new contract tonight.

The existing contract expires at midnight, which automatically will bring about the work stoppage.

The committee of 16, composed of operators and union officials, ended their negotiations shortly before midnight after a two-hour session. Indications had been that announcement of a new contract would come almost any minute, but a hitch developed when operators were reported to have balked at terms of a contract drawn up by a subcommittee of six.

"No Contract, No Jobs."
As he left the conference, John L. Lewis, U. M. W. president, said "no contract, no jobs." He added:

"Until there is a new agreement there will be no work."

The points of the agreement at which some of the operators balked were not revealed. There was said to be disagreement among the operators as to acceptance.

Lewis agreed to give the operators more time.

The committee will meet again at 2 p. m. (Atlanta time) tomorrow to resume negotiations.

Approximately 300 operators and union men, constituting a joint conference to pass on any agreement reached by the committee, had been waiting while the committee was in session anticipating a contract might be submitted at any time. However, Sherman Hesteff, committee sergeant-at-arms, told them at 11:15 p. m. they would not be needed until 4 p. m. tomorrow, indicating there would be no agreement tonight. He told the operators to get in touch with their mines to arrange for maintenance men to be ready to take care of the machinery in case of a work stoppage. A few minutes later the committee recessed for the night.

Question of Pay.
Efforts to draw up a new contract began February 17. The committee met at 10 a. m. today, remained in session until late afternoon and then recessed until 9:30 tonight. The question of higher wages was said to be the only remaining stumbling block.

The workers have demanded a guarantee of 200 working days a year at a basic rate of \$6 a day; a 30-hour week and two weeks' vacation with pay. The operators want to lengthen the work week and maintain the present scale.

Boy Scout Leader Admits Kidnap Hoax

EL PASO, Texas, March 31.—(UP) Sheriff Chris Fox said today Robert Miller, Safford, Ariz., Boy Scout executive missing since last Wednesday, had admitted his story of being kidnapped and held for ransom was a hoax.

Miller tearfully told the El Paso county sheriff he had "framed" the story so he could "return to Safford without embarrassment."

He said he had hitchhiked to El Paso after abandoning his automobile near Duncan, Ariz., and that he had "roamed around" there until his money gave out.

Then, he said, he decided on the kidnap story.

Miller turned up this morning at a natural gas station north of here, and when taken before Sheriff Fox, told the story of being abducted and held bound and gagged in an adobe hut on the desert until his release last night.

GREAT BRITAIN, FRANCE WARN SPANISH REBELS TO LEAVE SHIPS ALONE

War Vessels of Three Nations Patrol Coast to Protect Shipping.

LONDON, March 31.—(P)—British, French and Dutch warships patrolled waters off embroiled Spain tonight under firm instructions to protect their merchant shipping against interference or seizure by Spanish insurgent vessels.

Aroused by the stoppage and attacks on steamers, France joined Great Britain in warning the insurgents to keep their hands off ships carrying cargoes not banned by the non-intervention agreement which prohibits sending arms and men to Spain.

An additional group of Dutch warships arrived off Spain and took up their patrol, ready for action should a Dutch steamer be molested.

Britain lost no time in making good her declaration her merchantmen would be protected. The destroyers Gipsy went into action today by escorting the British steamer Thorpehall to Bilbao, Spain, from Gibraltar. The Thorpehall was en route to Bilbao yesterday when she was ordered to halt by an insurgent gunboat in the Straits of Gibraltar. Instead, the steamer made a dash for it and put into Gibraltar for protection.

Britain Demands Explanation. Britain demanded an explanation today from the insurgent Spanish regime of three attacks made on British merchantmen by insurgent warships this month and asked assurance there would be no repetition of the incidents.

In a strong protest presented to insurgent fleet commanders at the Cadiz (Spain) naval base, Britain declared insurgent vessels violated international law in opening fire on neutral shipping.

The British note mentioned the Spanish warships, the liner Maria Riera and the steamer St. Helene as vessels that had been stopped and searched. France gave a "serious warning" to the insurgent vessels after the French steamer Cap Falcon reported an insurgent fleet of 15 miles off Santander in the Bay of Biscay had opened fire on her, forced her to halt and permitted her to proceed only after a strong protest to the insurgent commander.

Both Sides Have Been Warned. In Paris, Foreign Minister Yvon Delbos declared both sides in the Spanish civil war had been warned "to abstain from all measures contrary to maritime law."

Meanwhile, persistent reports here indicated the insurgent leader, Generalissimo Francisco Franco, was facing serious trouble in Spanish Morocco—where he himself started the revolt eight months ago.

Reports received from French Morocco said Italian troops had landed in Spanish Morocco to preserve order against "serious" anti-Franco movements. There also were unconfirmed reports here that Franco had left the battle lines in Spain and flown back to Spanish Morocco.

The French cabinet was told today by Delbos that the 27-nation non-intervention committee plan to prevent arms and men reaching Spain by controlling land and sea frontiers would be in full operation shortly.

Apparently referring to Germany and Italy, Delbos said certain nations were "becoming more conciliatory," lending some hope a scheme might be worked out for the recall of many thousands of foreign volunteers fighting in Spain.

SCHWELLENBACH HITS ONE JUSTICE'S POWER

Continued From First Page.

ator Wheeler, Democrat, Montana, said his opponents regretted the Supreme court decision because it destroyed some of their arguments for "packing" the court.

Meanwhile, the senate judiciary committee was receiving testimony against the legislation, which would empower the President to increase the membership of the court unless justices past 70 retired. Democrats Thompson, columnist, and Edwin Borah, of the Yale University Law School, were the witnesses.

Miss Thompson objected to the measure as the possible forerunner of a dictatorship, not by President Roosevelt, but by a successor, and drew an analogy between the legislation and events in European countries leading to the abolition of democracy.

Makes Court Subservient. Professor Borah contended the bill, while "within the letter of the Constitution," was "in a broader sense unconstitutional" because "in the minds of many, it is calculated to make the supreme court subservient to the executive."

During the day, Senator Norris, Independent, Nebraska, visited the White House and said later that his position on the court bill was unchanged, that he favored other methods of approaching the problem, but that he would "vote for the plan" if he "can't get anything better."

Portrait of William A. Bass Is Presented School

The memory of the late Professor William A. Bass, Atlanta educator, was honored yesterday when Mrs. H. G. Bass presented an oil portrait of the educator to the William A. Bass Junior High School. entered the unending struggle once more with a statement saying the minimum wage decision shows the soundness of President Roosevelt's proposal "in vivid fashion." He said that "constitutional rights" of state legislatures to pass wage laws were "reinstated" only by the vote of a single justice.

In the house, Representative Burdick, Democrat, North Dakota, assailing the President's proposal, declared that "every Communist in America is solidly behind it," because they "believe it will make our troubles greater." Through it, he said, the Congressists hope to "procure a collapse of the government."

CATHOLIC DEAN OPPOSES CHANGE LOUISVILLE, Ky., March 31.—(UP)—The instinctive Catholic opposition to President Roosevelt's judicial reorganization program, the Rev. Wilfred Parsons, S. That impulse "is to oppose any change in the constitution which would be the bulwark, under the constitution, of our religious and civil liberties," Father Parsons said.

and perhaps we can untangle them together. Why, for instance, did young King Carol's men set up a hapless King in Constantia, Roumania's Black sea port, and relieve him of a thousand lives which represented the sweat of the honest fellow's brow? We have a diploma as substance of this outrage and if you can decipher Roumanian, writs of habeas corpus will be glad to have you drop around and see my etchings while we figure the wretched thing out. There's something in it about smuggled cigarettes, or some like preposterous absurdity.

And another thing, can you imagine why we languished in Capetown for so many weeks without writing a line home? Merely because some callow cynic doubted that we were Arthur King, of Blackpool, England, fancy! That's another story which must be divulged at length and included such fascinating characters as "Gadget," who had no arms or legs, and Spud Murphy, as pure an Egyptian as ever advertised the national "can can."

We love to stick our neck out so you may expect the unsurpassed edition of this escapade in the near future.

At present we dash gaily hither, thither and even yon. Gems of wisdom drop like quicksilver from the Cain tongue and people cluster about in awe. We have given our autograph. We stand in silent contemplation of the universe and wonder how long will it last. Sooner or later somebody's going to remember the night I dived into the Druid Hills swimming pool when the Druid Hills swimming pool was in the Druid Hills swimming pool when I attended that elegant gathering clad in spats and no shoes. Gruesome spectacles both.

SCHOOL PAYS TRIBUTE TO WILLIAM A. BASS

Late Educator Honored at Exercises as Portrait Is Presented.

Tribute to the late Professor William A. Bass was paid by Cam D. Dorsey, Atlanta lawyer, and others yesterday as Mrs. H. G. Bass, daughter-in-law of the distinguished teacher, presented the school named in his honor with his portrait done in oil.

At exercises yesterday morning in the auditorium of the William A. Bass Junior High School, the strong character and educational abilities of Professor Bass were praised.

"He influenced more men than any teacher I know," said Dorsey, who attended Boys' High school while Professor Bass was principal. "A study of his life shows a marked similarity with that of Robert E. Lee. Pupils at this school should be proud to attend an institution named in honor of such a worthy man."

Dr. Willis A. Sutton, superintendent of city schools; Ed Cook, president of the board of education; W. J. Scott, principal of the Bass school; Mrs. P. A. Rich, president of the school's P.-T. A.; Mack Williams, president of the student council, joined in honoring the memory of the noted educator.

Mrs. Bass, the professor's daughter-in-law, who gave the portrait to the school; Mrs. J. E. Pritchett and Mrs. A. H. Wilson, his nieces; H. H. Trotter, his nephew; Eulan Clay, his great-nephew; and Miss Elizabeth Harrison, his great niece, sat on the stage during the simple ceremony. sought to summarize and a strike of 1,200 truck drivers and helpers.

Sponsored by the Coal and Fuel Consumers' Union, an American Federation of Labor affiliate, the walkout crippled more than 40 fuel companies, halted land and water shipments of coal, coke and fuel oil, and threatened power plants and other institutions.

Halt of oil trucks, dealers said, might obstruct the operation of gasoline filling stations.

Deliveries to hospitals provided the sole exception to the delivery blockade.

The strike was called last night following a strike for 15 per cent wage increase, a 40-hour week and 11 holidays with pay instead of seven.

HOPES OF AUTO WORKERS REST ON GOVERNOR LANSING, Mich., March 31.—(P)—Hopes of more than 80,000 automotive workers for return to their jobs early next week rested tonight on Governor Frank Murphy's announced intention to "press day and night" for solution of the United Automobile workers' dispute.

Indicative, some sources said, of Murphy's aim to end the strike during the week end, after Walter P. Chrysler and C. O. Kelly, leaders in resuming negotiations in his office here, was the Governor's statement today.

We probably will be here Friday, Saturday and Sunday," said Kelly.

Ontario Auto Plant SETS STRIKE DEADLINE OSHAWA, Ont., March 31.—(P)—More than 3,000 employees of the Oshawa plant of General Motors of Canada today set a strike deadline for 9 a. m. tomorrow unless the company meets workers' demands that a Committee for Industrial Organization representative be admitted to wage-hour negotiations.

Workers, under the banner of the automobile workers' union, announced assembly lines would stop at that hour and all other plant work would halt if the C. I. O. representative, Hugh Thompson, was not admitted to the conference.

STRIKE OF 30,000 FEARED ON COAST SAN FRANCISCO, March 31.—(P)—A joint strike committee lined up "flying squadrons" tonight to call nearly 30,000 bay district workers from their jobs tomorrow in a drive for wage increases.

SIT-DOWNERS LAID TO "VESTED INTERESTS" WASHINGTON, March 31.—(P)—Senator Wagner, New York Democrat, mapped sit-down strikes today upon the organized and calculated cold-blooded sit-down of a few "vested interests" against the national labor relations act.

Author of that statute, he told the senate that it is a sufficient answer to the strike situation if the federal government has the power and determina-

PEDESTRIAN INJURED BY HIT-AND-RUN DRIVER

Struck down by a hit-and-run motorist after stepping from a street car, J. C. New, 32, of 354 Arizona avenue, last night sustained a broken left leg, cuts and bruising. He was treated at Grady hospital and transferred to St. Joseph's infirmary.

New told Patrolman Eddie Hughes he was struck by a black sedan which sped away after striking him. The accident occurred at Arizona and DeKalb avenues.

Uninvited Elephant Stages Lawn Party

MARIANNA, Fla., March 31.—(UP)—Police please," said a very annoyed feminine voice today, "send a radio car and remove an elephant from my front yard. It's eating my shrubbery."

Police found one of the largest elephants in captivity, playing hokey from the Haag shows, wintering here. The elephant returned finally to the circus grounds after a leisurely tour of town, refusing to be influenced by police.

The possibility of a supreme court decision next Monday as to whether the labor relations act is constitutional heightened interest in his address.

TEXTILE COMMITTEE TO HANDLE NEGOTIATIONS COVINGTON, Ga., March 31.—(P)—Robert Gaffney, organizer for the United Textile Workers, said here tonight at negotiations in the Industrial Rayon Corporation "sit-in" strike would be conducted "from now on" through the textile workers' organizing committee.

He conferred with leaders of the Synthetic Yarn Federation local immediately after arriving late today to participate in the strike proceedings and announced that funds to finance the "sit-in" were expected from the textile organizing committee.

Lloyd Mays, president of the yarn federation local union, claims approximately 1,000 of the plant's 1,300 employees joined in the strike, called early Tuesday morning, but only a portion of the number comprise the group occupying the plant.

RIGHT OF WAY COSTS WILL BAR UNDERPASS

the Bureau of Public Roads, has allocated \$500,000 for construction of the underpass provided the local governments furnish the right of way. City Attorney Jack Savage estimated cost of right of way for an underpass on North avenue under Marietta street and the N. C. & St. L. and Southern railroads would be at least \$200,000.

The mayor yesterday was told that J. T. Marshall, senior engineer of the Bureau of Public Roads, had stated the government would not aid unless the underpass was made to tie in with the traffic from Bankhead avenue as well as D'Almeida street, on the west side of the tracks.

S. C. GROUP TO WRITE NEW FINANCE MEASURE

House and Senate Unable To Agree on Present Appropriations Bill.

COLUMBIA, S. C., March 31.—(P)—The general assembly's biggest problem—appropriations for the fiscal year 1937-38—shifted today to a six-man committee which must draw up an acceptable compromise between the \$9,588,000 house measure and the \$10,814,000 total voted by the senate.

The house voted non-concurrence in senate amendments to its social security program, thus laying the groundwork for appointment of a free conference committee to iron out the differences between the \$1,045,000 relief plan of the house and the \$2,000,000 of the senate.

A determined group which staved off a direct vote on the proposal to reapportion gasoline tax receipts during almost three weeks of debate won their point when the house voted, 60 to 50, to kill the measure.

Ten members objected to a senate-approved resolution asking President Roosevelt to authorize construction of Clark's Hill dam on the Savannah river with federal funds and it was sent to a committee.

Engineer Notified. City engineer notified C. N. Crocker, bridge engineer with the state Highway Department, that the city does not intend to change its location "or the underpass, which is directly under Marietta street and the railroads to connect with North avenue on both sides.

The government allocation provides that rights of way must be obtained and contracts for the construction let by the state Highway Department by June 30, or else the \$500,000 is subject to reallocation. The mayor has requested state and government officials to hold the allocation as long as possible. However, it is not known whether the money can be held after the end of the government fiscal year.

Donaldson wrote the mayor that Marshall had suggested a tie-in with the underpass from Bankhead avenue to care for heavy traffic on that highway, as well as a tie-in on North avenue near Walnut street. Costs of rights of way on the two months for the underpass would be more than \$100,000, and the side streets must be adjusted. Rights of way include property adjustments also.

Bills Show Why Marie Antoinette Lost Her Head

NEW YORK, March 31.—(P)—The extravagances that cost Marie Antoinette her pretty head are mirrored in 106 of her receipted bills that go on the auction block here Thursday.

Books that cost as high as \$181 a volume, prints and foreign newspapers supplied at prices running into thousands over four years; hats that ran as high as \$40 each—all are accounted for in the receipts of the queen who suggested breadless commotions might eat cake.

The bills covering the four-year period from 1784-88 reflect not only a catholic taste in art and literature but the tragic Queen's indifference to the lavish spending which led to her execution on the guillotine in October, 1793.

The bills are receipted and indorsed by Monsieur Campan, secretary of the Queen's cabinet. A descendant of his wife, the famous teacher, Jeanne Louise Henriette Genest, sold them to their former owner.

**SMITH IS ACTING HEAD
OF STATE PRISON FARM**

Succeeds R. H. Lawrence at
Milledgeville After Lat-
ter Resigns.

Captain J. E. Smith, for a number of years in charge of the women's camp at the state prison farm, Milledgeville, yesterday was appointed Chairman G. A. Johns, state prison commission, as acting superintendent of the prison, succeeding R. H. (Rollie) Lawrence, resigned.

Chairman Johns said Lawrence resigned Tuesday and the commission had accepted the resignation. Lawrence, an appointee of former Governor Talmadge, confirmed reports that he had sent in his resignation to the State Prison Commission, effective immediately. He declined to discuss reasons for his action, but said he would issue a statement later giving a complete account of his administration and the cause of his retirement.

Lawrence became superintendent of the prison January 1, 1934. For four years prior to his appointment he served on the Baldwin county police, and as a deputy sheriff. Farming long has been a subject of keen interest to Lawrence and Governor Talmadge several times praised him for his work in bringing about greater production of food and feedstuff on the farms operated by the penitentiary.

**'Heavenly Mate'
To Father Divine
Accused by Girl**

NEW YORK, March 31.—(UP)—A pretty, 17-year-old Denver (Col.) high school student who said she was lured into the mystic flock of Father Divine and sent to arrest a fat, 200-pound "assistant god," tonight sent federal agents on a hunt for her "heavenly mate."

The girl, Delia Jewett, told her bizarre story to Rhet Whitely, head of Department of Justice men here, and a warrant immediately was issued in Los Angeles for the arrest of John W. Hunt, known to Father Divine followers as "Jesus the Christ," on a charge of violating the Mann act. Both Miss Jewett and Hunt are white.

Hunt, a six-foot, 33-year-old self-confessed "mystic," met Miss Jewett in Denver last December, according to the girl's story, persuaded her she was a reincarnation of "The Virgin Mary" and took her to a palatial house in Beverly Hills, Cal., where she said the so-called "marriage" was consummated.

She said they drove to Colorado Springs, where they registered as "John the Baptist and party of five," and all went out on the hotel lawn to play baseball with oranges.

Miss Jewett said she believed Hunt was "Jesus the Christ" until he reached across a dining room table and plucked a French fried potato off her plate.

Chinese Editor Asserts There
Is No Possibility of Eu-
ropean Conflict.

CHAPEL HILL, N. C., March 31.—(P)—Contrary to general opinion, war is more imminent in the far east than in Europe, W. T. Wu, editor of the Association Press of China, said in an address tonight before the fourth annual human relations institute at the University of North Carolina. "Serious as the situation in Europe is, there is no possibility of immediate trouble," said the Chinese editor. "The countries involved are too poor and burdened with too many internal problems to dare plunge into another suicidal conflict."

But it is "not so with the situation in the far east," he said. "The one disturbing element in that situation—Japan—is a rising power which has known no defeat since the Sino-Japanese war in 1905. It has a growing population and an exuberant industrial growth which require not only fresh markets but also new territories."

Other speakers were Dr. Grover Clark, educator, author and lecturer, who talked on the far east, and Dr. Ramon Gran San Martin, former president of Cuba, who described the forces underlying what he called "the authentic Cuban revolution."

STRIKERS TO PICKET BAKERY AS 'SIT-DOWN' PLAN HITS LEGAL BAR

Warrants Against Six With-
drawn After Defendants
Sign Agreement.

Legal pickets last night took up the employers' fight against the Stone Baking Company for discharging four men after six sit-down strike leaders were released following withdrawal of municipal court warrants sworn out against them.

Some 80 employees who staged the sit-down strike in the bakery Tuesday night voluntarily withdrew from the

building after the six leaders were arrested on the warrants.

At the hearing in municipal court yesterday morning, Chief Judge Luther Rosser pointed out "You may hold sit-down strikes in other states but you never will in Georgia as long as the present penal code is in effect."

The warrants were issued on that section of the penal code which provides: "If a person, by threats, violence, intimidation or other unlawful means, shall hinder the owner, manager, or proprietor for the time being from controlling, using, operating or working any property in any lawful occupation, or shall by such means hinder such persons from hiring or employing laborers or employees, such offender or offenders shall be guilty of a misdemeanor."

Men Sign Agreement.

Warrants were withdrawn by the company officials after the six men had signed an agreement not to again violate the code section on which they were arrested. Philip Alston, attorney for the bakery company, pointed out that if violation of this agreement results there will be no necessity for

Lawyer Loses Pants But Wasn't in Them

Hughes Spalding, prominent Atlanta attorney, lost his pants yesterday.

issuance of new warrants as the present ones were merely withdrawn.

Persons arrested were D. P. Dockery, H. A. Hardeman, James Mann, Pat Murphy and Earl Singleton, all employees of the bakery, and Herman J. Schach, of New Orleans, an organizer for the Bakers' and Confectionery Workers' Union. They were released on \$300 bond Tuesday night.

The six defendants were accompanied to the private hearing by Gus Harper, president of the Atlanta Federation of Trades. This strike was not authorized by the Atlanta federation, Harper said.

Plan Legal Picketing.

Following the hearing, and at the suggestion of Judge Rosser, the six defendants adjourned to the office of Jack Savage, attorney for the local federation, to discuss what legal picketing they could do.

Officials of the baking company last night said the plant would remain closed until the trouble blew over and indicated it might not be reopened even then.

Joseph Hexter, president of the baking company, said that in addition to bread and cakes ruined by the strikers, "it was also found that certain parts of the wrapping machinery were missing, rendering this equipment useless and preventing any bread from being wrapped. In another section of the plant several thousand dollars' worth of dough ready for the oven were found on the floor."

As this strike moved along peacefully yesterday, 10 negro employees of the Decatur sanitary department demonstrated wage increases, were refused, and walked out.

Officials termed it a "technical sit-down strike." There was no attempt to arbitrate and the city hired 10 new men to take their places.

W. Guy Hudson, sanitary inspector, reported the strikers were paid 25 cents an hour.

Lion Nears Crisis From Canvas Diet

CHARLOTTE, N. C., March 31. (AP)—Anxiety dominated the winter quarters of a little circus here tonight as the Duchess, a 7-year-old lioness, neared her crisis—she was operated upon yesterday for a malady which never possessed any of her jungle-born ancestors.

More than a yard and a half of heavy canvas was removed from her stomach in an operation which her trainer, Lorraine Wallace, said never had been likened before.

Tonight she lay in a coma after a brief rally when she growled deeply, blinked her heavy eyes and moved her head. Her physician, Dr. I. T. Lewis, said that he "gave up hope" this morning but grew more optimistic as she apparently grew stronger.

"If she gets through the night, it's a pretty good shot she'll get well. She won't be able to perform for some time, though," he said. Meanwhile, the Duchess is receiving stimulants through the veins, and food is being injected into her system. Coffee is part of her recovery diet. Her condition is due to the fact she gulped a huge slab of meat, enshrouded in the canvas.

Photonews of Death Flag, Slain N. Y. Model

ATLANTA'S DEATH FLAG—The black flag at Five Points, symbolizing a fatality caused by an auto accident in Atlanta, was raised yesterday notifying Atlantans that automobile accidents in the city had claimed its eleventh victim of the year. The victim was Mrs. J. H. Reeves, who succumbed to auto injuries Tuesday morning. Shown raising the flag in the above photo are, left to right, Captain Jack Malcom, C. B. Bishop, test manager of the Atlanta Motor Club, and Robert P. McLarty, president of the Atlanta Motor Club.

SLAIN MODEL—Veronica Gedeon, 20, artist's model, who was slain in a triple killing in her apartment in New York city, is shown in a dressing gown. The pretty model, her mother, Mrs. Mary Gedeon, 54, and a boarder, Frank Byrnes, 35, were found dead in the apartment. Police last night were questioning Joseph Gedeon, father of the model.

OPPOSES COURT PLAN—Photo shows Professor Erwin N. Griswold, of the Harvard Law school, as he testified before the senate judiciary committee in Washington, D. C., in favor of a constitutional amendment fixing the term of supreme court justices at 18 years in place of the President's plan to increase the membership of the court.

EASTER DAY MARRIAGE—Lyle Talbot, movie actor, and Miss Marguerite (Marty) Cramer, of New York, were married in an Easter Sunday wedding at Beverly Hills, Cal. They are shown after the ceremony.

GUESTS AT WHITE HOUSE—Very formal and official was this greeting at the White House in Washington when Lord Tweedsmuir, governor general of Canada, and Lady Tweedsmuir arrived last Tuesday. Left to right are Captain Paul Bastedo, naval aide to the President; Lord Tweedsmuir, Mrs. Roosevelt, Lady Tweedsmuir, President Roosevelt and Colonel Edwin M. Watson, his military aide.

WHITE HOUSE DINNER HONORS TWEEDSMUIR

Governor General of Canada Lays Wreath on Tomb of Unknown Soldier.

WASHINGTON, March 31.—(UP)—Lord Tweedsmuir, governor general of Canada, and Lady Tweedsmuir were honored tonight at a state dinner at the White House where they are official guests of President and Mrs. Roosevelt.

The dinner ended a day of ceremonial functions, including visits by Lord Tweedsmuir to Fort Myer, Va., Arlington National cemetery and to Mount Vernon. The governor general laid a wreath at the tomb of the Unknown Soldier and at the door to George Washington's tomb at the historic Mount Vernon shrine.

The Canadian official party went to Mount Vernon on the presidential yacht, Potomac, and were met at the estate's dock by President Roosevelt, who had motored from Washington. Tweedsmuir returned to Washington by motor with the President.

The governor general explained at a press conference that his position as the representative of King George VI in Canada did not permit him to discuss political or international questions publicly. He and President Roosevelt talked informally, however, about the entire range of Canadian-American relations.

ISLANDS SUGGESTED AS DEBT PAYMENT

WASHINGTON, March 31.—(AP)—Senator Lewis, Illinois Democrat, proposed today that France and England pay part of their debt to the United States by ceding two French islands in the St. Lawrence river and an adjoining strip of Canada to this country.

Lewis charged in the senate that residents of St. Pierre and Miquelon islands in the St. Lawrence were importing alcohol and smuggling it into the United States.

The French government, he said, has told the United States it is powerless to deal with the situation because the islands, deprived of their means of livelihood, might "revert" upon adjoining Canada. He suggested that while Lord Tweedsmuir, governor general of Canada, and the ambassador from France both were in Washington they might "come to some understanding" about the islands.

SCABBARD AND BLADE INITIATES 18 TONIGHT

Juniors at Georgia Tech To Join Honorary Society at Exercises.

Eighteen juniors will be formally initiated into the Georgia Tech chapter of the Scabbard and Blade fraternity at 7 o'clock tonight in the Georgia Tech Y. M. C. A. auditorium.

The new men are J. U. Nixon, T. Munroe, E. Patton, N. C. Harrison, of the naval unit; C. W. Robeson, T. L. Martin, W. E. Paxton, J. E. Wood, L. A. Guiley and R. E. Hood, of the coast artillery; E. Stauerman, J. W. Caldwell, W. E. Pritchard and J. C. Clarke, of the infantry unit; H. H. Herring, A. C. Crockett, I. H. Mann and L. R. Blanks, of the signal corps.

Scabbard and Blade is a national honorary military fraternity, only juniors being eligible for entrance into the group, with Company M of the second regiment being located at Tech.

The new men were "tapped" at a dance two weeks ago and will be formally inducted into the society tonight. The 18 initiates were to stand guard for 24 hours in front of the school administration building last night and are to be subjected to an inspection by members of the chapter at 7:30 o'clock this morning.

Officers of the local group are O. R. Simmons, president; Joe Corral, vice president; David Long, treasurer; and Hugh Smith, secretary.

AIR CRASH PROBE TOLD

ICE FORMED ON PLANE

PITTSBURGH, March 31.—(AP)—Department of Commerce investigators heard today that an ice condition existed near Pittsburgh the night a transport plane of the Transcontinental and Western Airlines crashed near by, killing 13 persons.

TWA officials had told the board of inquiry that ice on the control equipment of the plane sent it out of control, causing the nose dive into a cornfield five miles from the county airport last Thursday.

Cecil P. Northrup, pilot of a Pennsylvania Central Airlines plane that took off from the field a few minutes before the other ship crashed, said an inch and a half of ice formed on the de-icer of his ship as it passed through a severe ice storm.

Department Stores Announce Income.

NEW YORK, March 31.—(AP)—National Department Stores Corporation today reported for the year ended January 31, net income of \$1,149,501.

This was the first complete annual report for the company, successor to National Department Stores, Inc., and no comparative earnings were available.

\$1,000,000 Order Given by Ford.

AKRON, Ohio, March 31.—(AP)—The Akron Beacon Journal said today that a contract believed to be the largest single order for tire manufacturing machinery ever placed had been awarded to the National Rubber Machinery Company here by the Ford Motor Co., the paper said.

Reported to total upwards of \$1,000,000, the contract, for tire vulcanizers and mold equipment, is one of many let by the Ford company for furnishing its new tire plant in Detroit.

Refrigeration Sales Gain in February.

NEW YORK, March 31.—(AP)—World sales of household refrigerators in February totaled 245,614 units valued at \$20,709,075, compared with 173,196 units valued at \$14,179,108 a year ago, the National Electrical Manufacturers Association announced.

Large Earnings Shown In Shell Oil Report.

NEW YORK, March 31.—(AP)—Shell Union Oil Co., in its 1936 annual report, showed the largest earnings in 10 years with consolidated net income at \$22,494,364, equal after dividend requirements on preferred stock to \$1.57 a share on common stock.

Amy To Race Mate Across Atlantic

NEW YORK, March 31.—(AP)—The flying Mollisons, who are soon to be jousting in the British divorce court, will race against each other from New York to Paris next August, Amy Johnson Mollison said on her arrival here today from England.

Mrs. Mollison (or Miss Johnson as she prefers it) said she came to the United States "so I will not be there when the papers are filed" in her suit for divorce from Captain James Mollison.

She will fly, she said, a twin-motored French-built commercial plane with a cruising radius of 3,800 miles. Mollison, she said she understood, plans to fly a tri-motored Bellanca.

SHIP WILL KEEP SAILOR'S PROMISE

Ashes of Seaman's Widow Will Be Scattered in South Pacific.

SAN PEDRO, Cal., March 31.—(AP)—The Westfall Larsen freighter, Leikanger, sailing from here this week end, will turn from its course next week off the coast of Chile to keep a promise made to a sailor's widow before her death.

At a lonely spot in the south Pacific where Coleman Wright, British sailor, died 22 years ago, the Leikanger's skipper will scatter the ashes of Wright's widow, Lily.

Wright went to death in the early days of the World War when the British cruisers Monmouth and Good Hope were sunk by the German raider Emden with the loss of 1,200 lives.

On her deathbed, Mrs. Wright exacted a promise from a son, Edwin Wright, of Montgomery, Ala., that the last resting place of her ashes should be where her husband died.

Mrs. Wright died last June at her home in Pensance, England.

DAVIS IS EXPECTED TO SEEK NEW PLANS FOR DISARMAMENT

British Press Emphasizes Significance of His Arrival in London.

LONDON, March 31.—(AP)—As Norman H. Davis, American ambassador at large, reached London today, there were authoritative indications President Roosevelt may employ him to feel out the possibility of a new move toward disarmament.

Although Mr. Davis' immediate mission is to head the United States delegation at the international sugar conference, the British press emphasized the significance of his arrival in connection with larger questions of world peace and economic co-operation.

A member of Mr. Davis' suite said some of the newspapers' conjectures were "not far fetched."

An authoritative source said that although the ambassador ostensibly is here only to talk sugar with experts of other nations next week he may also, in talks with more highly placed statesmen, find time to re-emphasize the three basic points of American foreign policy: Peace, disarmament and international economic co-operation.

DISARMAMENT REPORTS FAVORED IN FRANCE

PARIS, March 31.—(AP)—Reports that Norman H. Davis, American ambassador at large, may try to advance the prospects of arms limitation and of lowering international trade barriers were favorably received by French officials and newspapers tonight. The arms race, French officials fear, if continued much longer will produce recurring financial crises.

ITALY WILL PUSH ARMS PROGRAM

ROME, March 31.—(AP)—Italy definitely has discarded every immediate hope for disarmament, informed sources said tonight as reports from London indicated Norman H. Davis, American ambassador at large, may sound out the possibility of a new move toward arms limitation.

Any suggestion for a disarmament conference, it was stated in political circles, would meet with little enthusiasm in Italy.

DOCTORS ASSERT CURES BY FEVER

Greatest Advantage Called Lessened Time of Treatment.

NEW YORK, March 31.—(AP)—Artificial fever was presented as a new medical "specific," a definite cure in one special disease—in this case gonorrhea—by 25 physicians today at the first international conference on fever therapy.

"Cure" was the word repeatedly used by several of these physicians. They said that not every case is cured. But they reported "cures" ranging from 70 to 90 per cent of cases treated.

The greatest boon, they agreed, is reduction in time, from the two to six months' treatment required by previous methods. Many cases have been "cured" by fever in one day.

One 10-hour "session of fever of 106.8 degrees," said Doctors Arthur Elmer Belt and Alvin William Folk, of Los Angeles, was tried on 64 cases. All but five were cured.

U. S. TAKES POSSESSION OF FAMOUS 101 RANCH

PONCE CITY, Okla., March 31.—(AP)—Broke and weary from years of fighting to retain his "inland empire" of 101,000 acres, Colonel Zack T. Miller surrendered the historic 101 Ranch white house to creditors today.

"He just didn't have money to keep up the fight," said Sid White, cowboy attorney who aided Miller in a long legal struggle. The ranch once was home of the famous 101 wild west show.

Miller told friends when he turned over the ranch headquarters to United States Marshal Hopper that he was "heading for Oklahoma City to see about a job with the state board of affairs."

Wealthy Pupils Quizzed on 'Wild Drinking Parties'

BEVERLY HILLS, Cal., March 31.—(AP)—A group of high school girls and boys were questioned today concerning what authorities called a series of wild drinking parties.

E. W. Graeb, head of the sheriff's juvenile squad, said the students were from "high-powered" families.

One of the girls questioned, he said, received a large monthly allowance from her parents and assisted in financing the parties.

In custody are three men, Donald MacDonald, Todd Morgan and Ted Forbe, charged with contributing to the delinquency of minors, and another, Harvey Rubie, who was booked on suspicion of a statutory charge.

Two 15-year-old girls were taken into custody and turned over to juvenile officials as material witnesses.

They were seized when authorities raided a luxuriously-furnished house in Culver City which Graeb said was the scene for many of the parties.

"We are going to concentrate upon the ring-leaders in this case and do not intend to smother the reputations of the Beverly Hills high school girls, most of whom are of prominent families," said Graeb.

ROEBLING EXPEDITION LEAVES FLORIDA TODAY FOR CARIBBEAN WATERS

Collection of Animal and Plant Life Sought for Smithsonian Institution.

CLEARWATER, Fla., March 31.—(P)—Donald Roebling said all was ready for the departure of his scientific expedition for Caribbean waters tomorrow. His yacht Iroquois will cast off at 10 a. m. for Key West and Havana, and after three or four days will arrive off the Isle of Pines to begin collection of specimens.

Dr. Paul Bartsch, curator of mollusca for Smithsonian Institution, supervised the final arrangements. He, Roebling and four friends form the expedition.

They will work in waters around Cuba, the Isle of Pines, Jamaica, Haiti, San Domingo and Yucatan. Much of this area has not been previously searched for marine life and Dr. Bartsch said species now unknown may be brought aboard the craft.

Special Cameras Taken. Dredging equipment capable of working 600 feet below the surface is aboard the Iroquois. Specially designed camera boxes for underwater color photography will be carried.

The party will be gone three and a half months. Roebling's friend, Al Williams, will serve as navigator. Mrs. Williams also will make the trip.

The primary object will be to secure as complete a collection as possible of the animal and plant life of the shallow waters of the area in question, which is a little-explored field, and it is likely that scores of hitherto unknown species will be brought to light.

Careful Studies Planned. In addition, however, Dr. Bartsch plans to conduct careful, ecological studies, noting the habitat and associations of the various kinds of shallow-water animals and plants and the characters which adjustment to habitats may have produced.

The Yucatan bank, Dr. Bartsch said, has sometimes been described as having the richest fauna in the entire Atlantic, while the life of the sea off the southern coast of Haiti is practically unknown.

Four years ago Dr. Bartsch was in charge of the scientific work of the Johnson-Smithsonian Deep Sea Expedition which made very large collections from great depths in the Puerto Rican deep. This resulted in one of the richest biological collections ever made in an equivalent period of time.

These collections are also in the Smithsonian Institution, he brought to light. It is expected that the forthcoming expedition will accomplish similar results for the shallow-water areas, usually the richest collecting field.

MARTHA BERRY SCHOOL GETS \$5,000 BEQUEST

NEW YORK, March 31.—(P)—Samuel Hopkins, retired cotton merchant, who died last June 21, left the residue of his estate, estimated at \$579,419, to Williams College, at Williamstown, Mass., a tax appraisal disclosed today.

Hopkins made a \$5,000 bequest to the Martha Berry school at Mount Berry, Ga.

DIANE GETS JOB TO TAKE 'EM OFF

American Strip Tease Dancer Signs Two Contracts in London.

LONDON, March 31.—(UP)—Diane Raye, American strip-tease dancer who accepted six weeks' wages to keep her clothes on and go home, learned tonight that she can now take them off—and be paid for it.

The blonde 20-year-old actress, who came to England to introduce the strip-tease "art" to theatergoers, received and accepted tonight five minutes' notice to give "completely uncensored" shows beginning next Monday.

"No decent Englishman," the champion of nudity said, "could blush at my body."

Contracts were signed with the San Marco restaurant and the Victoria Palace, one of London's most famous variety houses, within a stone's throw of Buckingham palace.

DENIES SLAYING GIRL

BUFFALO, N. Y., March 31.—(P)—Freddie-cheeked Thomas Smith, 18-year-old newsboy, pleaded innocent today to a charge of murdering 18-year-old Mary Ellen Babcock, and his attorneys said they might ask the court to appoint a sanity commission.

AGONISTIC HONORS WON BY JUNIORS

Class Wins First Place in Best Edition Contest for Second Time.

For the second time in as many years the junior class edition of the Agonistic, Agnes Scott weekly publication, was awarded first place honors in the annual intraclass contest for best issues of the Agonistic.

Carol Hale, of 414 Altoona place, Atlanta, edited the winning junior edition, and Joyce Roper, of Spartanburg, was business manager.

Judge for this year's contest were William T. Wynn, of the journalism department of the Georgia State College for Women; John Drewry, director of the journalism school of the University of Georgia; Ray Nixon, of the Emory University journalism department; John B. Allen, of the journalism department of Mercer University; and Miss Annie Mae Christie, of the English department of Agnes Scott.

WINS COOKING PRIZE

NEW YORK, March 31.—(P)—Mrs. Helen P. Angell, Columbus, Ohio, tonight was declared winner of the second National Canned Goods Cookery competition of the Women's National Exposition of Arts and Industries. She will receive a \$500 prize.

INDIAN GOVERNMENT BANS DEMONSTRATION

Authorities Act on Eve of Granting Semi-Autonomy to 11 Provinces.

CALCUTTA, India, March 31.—(P)—The government of India, tensely watching inauguration of a new constitution granting semi-autonomy to 11 provinces, tonight clamped a strict ban on giant demonstrations and a proposed general strike.

The secretary of the congress party, bitter opponent of constitution, and five leading members were forbidden to organize processions, but other methods of expressing disapproval were planned.

LONDON, March 31.—(P)—King George VI wired his best wishes tonight to the 11 Indian provinces which tomorrow assume a measure of autonomy.

"I cannot let the day pass without assuring my Indian subjects that my good wishes are with them on this occasion," he wired. "A new chapter is this opening, and it is my fervent hope and prayer that the opportunities now available to them will be used wisely and generously for the lasting benefit of all my Indian people."

2 BILLION ASKED Mayor's Conference Seeks Increase in Funds for WPA Work.

WASHINGTON, March 31.—(P)—The United States conference of mayors asked President Roosevelt today to recommend a \$2,200,000,000 work relief appropriation for the fiscal year beginning July 1.

The mayors expressed hope that the entire sum would be asked of congress at one time so that WPA officials could plan a fully year ahead.

The request was delivered by Mayor Fiorello H. LaGuardia, of New York. His presentation recalled that the President has stated the question of a balanced budget is an open one "for the very good reason that this government does not propose next year, any more than during the last four years, to allow American families to starve."

'SIT-DOWN' STUDENTS RETURN TO CLASSES

GUNTOWN, Miss., March 31.—(P)—Students returned to classes today at two strike-ridden northeastern Mississippi schools while at a third a reopening movement was considered.

Following a threat of criminal action, 15 high school students here called off their strike which started yesterday when they held the building of several teachers and students. They protested reports that the trustees had decided not to re-elect several faculty members.

Parents, giving the board of trustees a vote of confidence, put an end to a rebellion at Ecru, about 40 miles southwest of here. Students returned to classes today.

Following a threat of criminal action, 15 high school students here called off their strike which started yesterday when they held the building of several teachers and students. They protested reports that the trustees had decided not to re-elect several faculty members.

ENEMY EXTERMINATION DEMANDED BY STALIN

MOSCOW, April 1.—(P)—Joseph Stalin's demand for "merciless" extermination of all Bolshevik enemies was served on the nation early today.

He made the demand in a speech, published this morning, delivered March 5 in the Kremlin at the closing session of a plenum of the central committee of the Communist party.

Observers regarded the speech as of greatest significance because, they said, the secretary of the central committee made perfectly clear that after a decade of struggling with "Trotskyism," he now has determined to wipe out completely all Soviet opposition.

CONVICTED IN 18 DEATHS.

NEW YORK, March 31.—(P)—Six men were found guilty of criminal negligence tonight in connection with the death of 18 workmen in the collapse of a new Bronx apartment house last June 19.

Wives Aid Employer To Rout Sit-Downers

There are ways to end sit-down strikes without resorting to the courts, J. A. Harper, president of the Atlanta Federation of Trades, said in casual conversation yesterday.

Harper said he was informed 60 workers "sat down" in a strike in a Toledo plant recently and refused to leave when the employer pleaded with them to vacate.

"This employer was a bit smarter than most of them," said Harper. "He went out and hired about 15 girls of very easy virtue. He locked these girls in the plant with the strikers and then called up the wife of every man in the plant. 'Those wives stopped that sit-down strike in a very few minutes.'"

TVA FIGHT IN GEORGIA HEADS FOR HIGH COURT

Utilities Attorney Will Seek Stay in Plea to Justice Cardozo.

KNOXVILLE, Tenn., March 31.—(UP)—Private utilities served notice today they will ask the supreme court to aid in their fight to prevent the Tennessee Valley Authority from extending power lines into northwest Georgia.

The utilities asked a stay of execution of a recent decree of the New Orleans circuit court, enjoining the Georgia Power Company from interfering with plans of TVA for rural electrification in northwest Georgia.

The Georgia Power Company had sought to invoke an injunction handed down in Nashville federal court, enjoining further development of TVA's electrification program pending determination of TVA constitutionality.

The New Orleans circuit court, however, ruled that the injunction was not applicable to the northwest Georgia section which the Georgia Power Company was contesting.

Newton D. Baker, chief attorney for the utilities, notified TVA today that he will ask Justice Benjamin Cardozo, of the United States supreme court, Friday for a stay of the circuit court order pending application for a writ of certiorari.

FHA REPORTS LOSSES ON REPAIR LOANS LOW

WASHINGTON, March 31.—(UP)—The Federal Housing Administration, which expected to go \$75,000,000 in the red on President Roosevelt's depression-era home modernization and repair program, closed its books tonight with the statement that it will lose less than \$25,000,000.

The program was carried out under an emergency section of the national housing act passed in the dark days of 1934 when home owners were financially hard hit and houses were falling into disrepair. Under the plan which the President said would stimulate the prostrate building industry and put thousands of men to work, the government insured loans which were to be repaid with interest.

SANTEE-COOPER LAND VALUE IS ESTIMATED

Witnesses Place Price of Dam Property at 75 Cents to \$40 an Acre.

COLUMBIA, S. C., March 31.—(UP)—Defendants in the Santee-Cooper power project trial this afternoon obtained from several of their witnesses estimates of the value of land in the proposed dam site area ranging from 75 cents to \$40 per acre.

The defendants, the federal government and the South Carolina Public Service Authority, began yesterday introducing their testimony in an attempt to establish the fact that the utilities are seeking a permanent injunction against construction with federal funds of the proposed project.

Attempting to establish the fact that unemployables in the state would be given work should the project be built, Senator R. M. Jeffries, the Authority's attorney, this afternoon attempted to show that the land covering the proposed dam area is worth little exclusive of the timber.

Senator M. M. Murray, of Monck's Corner, Beekley county, testified for the defense that his estimate of the swamp land, exclusive of the timber, was \$1 an acre. The average farm land he valued at from \$8 to \$10 an acre, and the best farm land, \$35-\$40 an acre.

G. L. Cotton, of Russellville, S. C., logging superintendent of the Camp Manufacturing Company, also estimated the swamp land to be worth "31 an acre exclusive of the timber."

P. R. Camp, vice president and general manager of the Camp Manufacturing Company, and president of the Santee Lumber Company, placed his estimate at from 75 cents to \$1 an acre for swamp land.

ALABAMA RUM STORES TO SELL PINTS, QUARTS

MONTGOMERY, Ala., March 31.—(P)—The Alabama Alcoholic Beverage Control Board decided tentatively today that liquor stores to be established in the state's 24 wet counties should sell package liquors and wines in pints and quarts only.

This decision would eliminate competition between hotels, clubs and restaurants and the state stores in the sale of half pint and "one-drink" bottled goods.

The board recently decided to limit hotel, club and restaurant sales to half pint and "one-drink" bottles, pointing out the new state beverage control act specified sales by these establishments were to be for "on premises consumption" only.

STATE HEALTH BOARD RENAMES R. F. MADDOX, OF ATLANTA, CHAIRMAN

Annual Meeting Plans Increased Activity, Thanks Governor for Aid.

Robert F. Maddox was unanimously re-elected chairman of the State Board of Health at the annual meeting of this group held yesterday morning in the office of the director, Dr. T. F. Abernethy, at the state capitol.

Mr. Maddox has been a member of State Board of Health since 1913, and has served as chairman for approximately 10 years, during which time he has devoted much of his time and effort towards furthering public health work projects and programs throughout Georgia. In accepting re-election to the chairmanship of the board Mr. Maddox expressed his desire to continue with the forward movement the state health department has been carrying on in recent years, particularly within the past few months, when plans have been formulated for a greatly expanded program of public health in Georgia through the increased state appropriation of \$800,000 for the fiscal year 1937.

Dr. M. M. Head, of Zebulon, was re-elected vice chairman of the board, his being his second term of office. Dr. Head accepted the election to office with a brief talk in which he expressed his desire to help with public health work in any way possible.

Governor Rivers, who was prevented from attending the meeting because of illness, was given a rising vote of thanks for "his interest in public health," in a formal resolution in which the board pledged its utmost support to the chief executive in carrying out his broad humanitarian program.

The resolution said in part: "Whereas, His Excellency, E. D. Rivers, the Governor of Georgia, has shown a clear perception of the public welfare by the recognition of the fact that public health is purchasable, as evidenced by his recommendations to the general assembly and the passage by that body of increased appropriations for the expansion of public health services; therefore, be it resolved, that the State Board of Health give him a rising vote of thanks for his interest in the public health."

"A major portion of the additional appropriation for public health work in Georgia is to be spent in county health work," Dr. Abernethy said, declaring "that already this year 14 additional counties have adopted the Ellis health law and organized health units, bringing the total number of organized health counties in the state to 47. With additional counties now taking initial steps toward organization, we expect to bring the total to 63 counties with organized health service by the close of 1937."

14 New Counties.
The 14 new counties which have been organized since January 1 are Whitfield, Burke, Worth, Tift, Telfair, Wheeler, Montgomery, Toombs, Dooly, Crisp, Macon, Peach, Clinch and Calhoun. Several of these counties are combined in making one organized county health unit, which plan in smaller counties is advocated by the health director as a means of making available public health service.

HELPFUL ADVICE TO ACNE SUFFERERS

For acne pimples affecting the outer or surface layer of the skin, here is advice that will help improve your complexion.

Every night at bedtime, wash your face thoroughly with Resinol Soap and hot water. Do not rub. Follow with a dash of cold water and dry thoroughly but gently. Then apply Resinol Ointment to the affected skin and leave it on all night. Do this every night, and watch the improvement.

Local treatment is advised as a helpful aid in acne cases, and for more than 40 years the ingredients of Resinol have been found effective.

Resinol benefits by treating the irritated oil ducts, where most surface pimples start. In this way it aids healing of such pimples and also tends to check their recurrence.

Buy Resinol Ointment and Soap in any drug store. For free sample, write to Resinol, Dept. 15, Baltimore, Md.

75-Cent Flashlight Costs Year on Gang

This flashlight was rather costly for L. W. Spivy, young white man. According to testimony in Fulton superior court yesterday, Spivy broke into a store and took a two-cell flashlight valued at 75 cents. To pay for this object, he will serve a full-year sentence in the Fulton county jail.

Paul H. Rivers, another white man, entered a plea of guilty to robbery charges before Judge Hugh M. Dorsey and was given a 15-to-20-year suspended sentence.

ice to the less populated or more rural counties of the state.

With additional state and federal appropriations for public health work, the director announced the enlarged program will include a state-wide campaign on venereal disease control; an enlargement of maternal and child hygiene and public health nursing largely supervised by state personnel; an expansion of the program now being carried out by the division of tuberculosis control, looking to an adequate program to materially reduce the necessity for beds in the state tuberculosis sanatorium; and special technical supervision for the protection of municipal and public water supplies and sewage disposal, which he declared, can best be accomplished in the central organization, the work to increase materially as county health departments educate the communities to the needs.

Of special benefit to the furtherance of public health will be enlarged facilities for laboratory work and services, public health laboratory work necessarily increasing in direct ratio to the increase in the establishment of county health departments.

Births Decrease.
A decrease of 6 per cent in the number of recorded births in 1936 as compared with 1935, was an increase of 1 per cent in the number of recorded deaths for 1936, over 1935, was disclosed in the annual report given by Dr. Abernethy.

A total of 60,037 births were registered in Georgia during 1936, while 36,795 deaths were reported to the division of vital statistics.

The members of the state board of health include Governor Rivers, Mr. Maddox, Dr. Head, Dr. Cleveland Thompson, Miller, Dr. C. K. Sharp, Arlington, R. C. Ellis, Americus; Dr. A. R. Rozar, Macon; Dr. M. M. McCord, Rome; Dr. H. W. Clements, Adel; Dr. W. A. Mulherin, Augusta; Dr. T. G. Marshall, Atlanta; Dr. W. T. Edwards, Augusta; Dr. J. G. Williams, Atlanta, and Dr. Paul McGee, Waycross.

TEXTILE CONFERENCE WILL OPEN TOMORROW

Three Delegates To Represent U. S. at Meeting To Be Held in Capital.

WASHINGTON, March 31.—(P)—A secretarial staff from Geneva, Switzerland, rehearsed in five languages today the part it will play in the forthcoming international conference on textile labor problems.

The conference, which opens here Friday, will be attended by delegates from 19 countries, all leaders in textile manufacturing. The Geneva secretariat will be from the international labor organization, a League of Nations affiliate.

Most of the discussions will be in French and English. The United States government will be represented by John G. Winant, former head of the Social Security Board. Former Governor O. Max Gardner, of North Carolina, will represent employers and Emil Rieve, president of the American Federation of Hosiery Workers, will represent labor.

While the delegates assembled, to discuss among other things improvement of hours and wages, a representative of American Textile Workers conferred with President Roosevelt on domestic labor matters.

Sidney Hillman, head of the workers' organizing committee, said upon leaving the White House that he expressed to the President a hope that unionization work could be carried out "without strikes or industrial disturbances."

FAIR, WARM WEATHER FOR APRIL FOOL'S DAY
March, closing its books yesterday, handed over to April a good start on the credit side of the ledger, with fair and warm weather scheduled for today to give pranksters full play for their annual April fool activities.

This morning, however, the weather will be slightly chilly, the mercury dropping to 40 degrees, bringing frost throughout the Atlanta area. During the day the temperature is expected to touch 60 degrees, going at least one degree higher than yesterday's 59-degree high.

Skies to the west are generally fair and are expected to keep the weather here springlike for the next two or three days, observers at the Atlanta Weather Bureau last night said.

VALUE OF LIVESTOCK TO GEORGIA IS CITED

TVA Economist Urges Further Farm Diversification Plans in Speech Here.

Livestock products and livestock contributed \$45,000,000 to Georgia's income last year, it was pointed out here last night by Dr. J. Haden Alldredge, economist for the Tennessee Valley Authority, in a plea for diversification of farm lands.

Speaking before the Business Club of the Evening College, University System of Georgia, Dr. Alldredge, calling attention to how farmers can benefit from diversified agriculture, said: "Georgia is apparently making progress in a direction which holds considerable promise. Many agricultural economists have pointed out that livestock and livestock production, when carried out in a scientific manner, yields a greater income per farm than the cultivation of crops."

"This fact is borne out by statistics on agricultural income. For instance, in 1935, value of livestock and livestock production in the United States was \$4,639,000,000, while the income from crops was \$3,868,000,000."

Dr. Alldredge touched upon many phases of farm problems, including soil conservation, water control and economy planned to raise per capita income in the southeast.

NAZI LAWS TO LIMIT INHERITING PROPERTY

Workers, Peasants Favored Over Direct Heirs in New Code.

BERLIN, March 31.—(P)—The Nazi government is preparing to give to the German people a new conception of property rights, differing radically from the ideas of orthodox capitalism, a high official disclosed tonight.

New civil laws are in process of codification, said this official, and in them "there will be no need and no room" for "abstract" rights of property, especially with respect to land.

Roland Freisler, state secretary in the ministry of justice, made these disclosures in an article in a law magazine, "German Common and Economic Law."

This legal authority predicted new conceptions would govern inheritance. Under new laws such passage of property will be governed by considerations of proximity, which may be either of relationship or of occupational relationship.

Thus a distant relative would have less chance of inheriting industrial property than a worker who had helped the original owner develop it.

The new laws, wrote Freisler, in many respects already are in full operation, as exemplified by the hereditary farm laws, labor laws and racial laws which place Jews on a different status from other Germans with regard to property rights.

In the same way new laws are establishing a modern relationship between workers and their factories, and also between the whole people and such property as mineral resources, rivers and canals. Some of these

changes remain to be legislated, the writer said.

Freisler explained the Nazi government had no intention of interfering with the rights of farmers to possess their land, but aimed rather "to guarantee the peasantry its status within the state."

TOWED DREDGE LEAKING.
JACKSONVILLE, Fla., March 31.—(P)—The coast guard reported tonight the steamer Chippewa was having difficulty off the coast of Cuba with a leaking dredge it had in tow. Standing by was the vessel Joseph Seep and the tug Warbler. The coast guard cutter Pandora was en route to the scene.

LIMIT FOR NAVY GUNS LAPSES WITH FAILURE OF JAPANESE TO SIGN

Race for Bigger Ships and Weapons Looms for Sea Powers.

NEW YORK, March 31.—(AP)—April fools' day—tomorrow—clears the decks for what may be a race among world naval powers in bigger ships and probably bigger battleships. Expiring at midnight is the time allotted for the five biggest navies to pledge themselves to maximum guns of 14 inches in future building.

Just as restrictions on the total size of navies lapsed January 1 with the expiration of the Washington and London treaties of 1922 and 1930, so now the last possible check on the size of warships is abandoned.

"If there is real competition in guns, bigger ships will be required," Rear Admiral William Woodward Phelps, former navy general board member and past commandant at the Brooklyn and Portsmouth, N. H., yards, said today in commenting on the failure of the gun pact.

A year ago the United States, Britain and France agreed to a 14-inch limit if Japan and Italy would adhere. Only Japan has refused. Only the United States has ratified an alternative agreement for a 16-inch limit but Britain and France could yet join under terms of the 1936 treaty which their delegates signed.

Failure of Japan to accept the 14-inch limit, has renewed a dispute as to whether it is better to mount nine 16-inch or 12 14-inch weapons on two new battleships, the bids for one of which were to be issued today.

"But we may have a harder battle and more accurate weapon in our 14-inch modern gun than the old 16-inch

Lone NRA Employee Receives Final Pay

WASHINGTON, March 31.—(AP)—Miss Diana Rogovin, last person on NRA's payroll, drew her final pay check today.

She closed a borrowed desk in the department of commerce, where the President's report on NRA's effects was prepared.

"I'm going south for a two weeks' rest," the petite, prematurely-gray young woman announced. "Then back here to look for another job."

She joined the NRA staff in September, 1933, two months after it started. After the supreme court ruled out the recovery act, the staff of 5,300 employees dwindled rapidly.

gun," said Admiral Phelps. "In the Battle of Jutland in the World War, the Germans, with 11-inch guns, overwhelmed Lord Beatty (the British admiral), who had 13-inch guns. It was a question of fire control and accuracy."

ALL IMPORTANT BILLS SIGNED BY GOVERNOR

Tax-Raising Measures on Beer, Wine, Tobacco Go Into Effect Today.

Bills setting up new or increased taxes on buses, trucks, beer, wine, tobacco and incomes became the law of Georgia yesterday.

The measures, designed to help finance Governor Rivers' social security, roads and education programs, were signed by the chief executive shortly before he left for a motor vacation in Florida.

In a brief statement Rivers said he had acted on every bill passed by the assembly which adjourned Thursday night. He said he vetoed "very few of them," and that in such cases it usually was with the consent of their sponsors, or on the advice of Attorney General M. J. Yeomans.

The Governor signed every major bill.

Besides the tax acts, others signed yesterday provide for:

Voluntary retirement of supreme court justices at 70, on two-thirds pay, after 10 years' service.

Increasing the membership of the board of regents from 12 to 16.

Co-operation with the federal government in rural electrification.

Biennial appropriations of approximately \$44,000,000 annually, or \$14,000,000 yearly more than in recent years.

Establishment of a boxing commission for Georgia.

Death penalty, at the option of the jury, for robbery by force.

Effective immediately.

The state Revenue Commission announced that the wine, beer and tobacco tax bills became effective immediately. The tax on beer was doubled—old rate \$1.25 a barrel, new rate \$2.50. Tobacco taxes were doubled on cigars, decreased slightly on cigars. Popular brand cigars will cost 2 3/4 cents a pack more henceforth. Wine, heretofore untaxed, will bear a levy of from 10 to 60 cents a gallon.

The new income tax, more than doubling present rates, applies to 1937 incomes on which taxes are payable next year.

The bus-truck tax applies to the last half of this year.

There has been speculation whether Rivers would sign the bus-truck law, since it repeals present mileage taxes. In some sources, belief was expressed the repeal of mileage taxes would reduce taxes for some large operators, but it was generally believed that the tax income from this source would be increased.

The Governor signed a proposed constitutional amendment to exempt \$2,000 of the value of homesteads from taxation. Previously he had approved a similar proposal to exempt personal property, up to the value of \$300, from taxation.

Statement by Rivers.

Rivers left behind a statement saying:

"I have concluded signing the various bills passed by the general assembly and have vetoed very few of them."

"Most of those vetoed were vetoed either with the consent of the author or by reason of their being ruled unconstitutional by the attorney general."

"On reviewing the bills, as I have in signing them, I wish to again congratulate the general assembly upon the great work it has done."

"Many of the bills do not meet my full approval in the form and manner in which they were passed."

"Many of them are the results of compromise and did not meet the full approval of the assembly itself, and were passed with the knowledge that when we have our special session this summer or fall they will have to be amended."

"This is especially true of the truck and bus maintenance tax bill."

"It does not meet my full approval, as passed and, after talking with many members of the assembly, I do not believe it meets their full approval."

"Therefore, I expect to insist at the special session that this bill be amended so as to eliminate such inequities as its practical application may prove to exist."

"The Highway Department advises me they have been notified by the federal government that we have already been allotted \$846,000 to match this truck and maintenance tax fund for rural post roads and that in all probability more funds will be allotted to us to match these same funds during the current year. We cannot afford to lose a single dollar of this federal money for our rural route program."

DAUGHTER SURRENDERS
HEIRLOOMS TO MOTHER

MEMPHIS, Tenn., March 31.—(AP)—Miss Mary Winslow, 34, surrendered silver table service, valuable heirlooms and bonds to a sheriff's deputy today in meeting the terms of an injunction obtained by her mother, Mrs. Ann Goodwin Winslow, prominent society matron.

Mrs. Winslow obtained a mandatory injunction to restrain her daughter from disposing of the articles to finance a farming project. The silver, antiques and bonds, valued at \$10,000, were deposited in the registry of chancery court pending a hearing of the suit.

MISS MILDRED THOMPSON, Teacher,
Wins Headline Contest Air Trip

Grand Prize in Loew's Grand-Constitution 'Maytime' Game Awarded Atlanta School Instructor; Will Choose Flight Destination Before Vacation.

The "Maytime" contest editor of The Constitution speaking: "Miss Thompson, what would you say if you were told you had been adjudged winner of two round-trip tickets over Eastern Air Lines in the Loew's Grand-Constitution 'Maytime' contest?"

Miss Mildred Thompson, of 1041 West Peachtree street, replied: "I would become very, very dizzy—and that would be easy, since I've just got up from a severe case of flu."

"Maytime" contest editor speaking again: "Miss Thompson, it wasn't our intention to get you 'up in the air'—or was it? Why else should we offer you a long trip by plane?"

Miss Thompson had given so little thought to winning the grand prize she hasn't yet planned her trip, but inasmuch as she is a teacher in one of Atlanta's high schools, she states she will be looking forward to a "high time" very soon after the close of school in June, when she and a traveling companion may select any point on the route of the Eastern Air Lines, as vacation destination. If New York is chosen, their award will include tickets for "The Good Earth" on extended run, in that city.

Winners of a pair of guest tickets each to "Maytime," the Metro-Goldwyn-Mayer offering starting at Loew's Grand tomorrow, for the Loew's submitted for the last picture in the contest will be mailed to Mrs. George M. SENATORS DEBATE
GUFFEY COAL BILL

Conflicting Views Voiced on
Constitutionality of
Proposal.

WASHINGTON, March 31.—(AP)—Senators debate a stack of proposed amendments to the Guffey-Vinson coal bill today, all the while voicing conflicting predictions about the measure's fate in the supreme court.

Constitutionality of portions of the bill became the principal issue after Senator Guffey, Pennsylvania, Democrat, urged regulation of the soft coal industry as a protection against wasteful mining practices and "unfair competition" among producers.

Guffey and Senator Neely, West Virginia, Democrat, cited supreme court decisions to support their contention that the bill would be held constitutional. It has passed the house.

Senator Borah, Republican, Idaho, and Senator Caidin, Democrat, Maryland, suggested that some sections might be invalidated.

DR. WALKER, SURGEON
IN WORLD WAR, DIES

Chief Urologist of Army
After Armistice Had Been
Ill 18 Months.

BALTIMORE, March 31.—(AP)—Dr. George Walker, widely known wartime surgeon and chief urologist of the army after the armistice, died today at a hospital where he had been a patient for 18 months. He was 68.

Dr. Walker, a native of South Carolina, was a bachelor. His sole survivors are several nieces who live in his native state.

Answering the call to the colors, he went to France in 1917 as a member of the medical corps. He entered the service as a major and came out as a full colonel.

After the armistice, he was made chief urologist of the American army and, after spending some time in England, returned to the United States in 1919 with four gold stripes and a record of 27 months of continuous foreign service.

SANITARY WORKERS
STRIKE—LOSE JOBS

When a dozen negro sanitary truck workers in Decatur went on strike yesterday morning they struck so hard they lost their jobs. City Manager A. M. Newman reported.

The helpers told Guy Hudson, sanitary superintendent, they would not work any longer for the pay they were receiving and asked for higher wages. Hudson replied he had no authority to raise any one's pay. The negroes walked out.

Within an hour Hudson and Newman had employed another dozen helpers—at the same rate of pay.

Miss Mildred Thompson, Teacher, Wins Headline Contest Air Trip

Grand Prize in Loew's Grand-Constitution 'Maytime' Game Awarded Atlanta School Instructor; Will Choose Flight Destination Before Vacation.

The "Maytime" contest editor of The Constitution speaking: "Miss Thompson, what would you say if you were told you had been adjudged winner of two round-trip tickets over Eastern Air Lines in the Loew's Grand-Constitution 'Maytime' contest?"

Miss Mildred Thompson, of 1041 West Peachtree street, replied: "I would become very, very dizzy—and that would be easy, since I've just got up from a severe case of flu."

"Maytime" contest editor speaking again: "Miss Thompson, it wasn't our intention to get you 'up in the air'—or was it? Why else should we offer you a long trip by plane?"

Miss Thompson had given so little thought to winning the grand prize she hasn't yet planned her trip, but inasmuch as she is a teacher in one of Atlanta's high schools, she states she will be looking forward to a "high time" very soon after the close of school in June, when she and a traveling companion may select any point on the route of the Eastern Air Lines, as vacation destination. If New York is chosen, their award will include tickets for "The Good Earth" on extended run, in that city.

Winners of a pair of guest tickets each to "Maytime," the Metro-Goldwyn-Mayer offering starting at Loew's Grand tomorrow, for the Loew's submitted for the last picture in the contest will be mailed to Mrs. George M. Murphy, 519 Parkway drive, N. E.; Miss Mildred Thompson, 1041 West Peachtree street; Morris Meisel, 52 Mangum street; N. W.; Victor E. Markowitz, 908 Piedmont avenue, N. E.; H. J. SENATORS DEBATE GUFFEY COAL BILL

Conflicting Views Voiced on
Constitutionality of
Proposal.

WASHINGTON, March 31.—(AP)—Senators debate a stack of proposed amendments to the Guffey-Vinson coal bill today, all the while voicing conflicting predictions about the measure's fate in the supreme court.

Constitutionality of portions of the bill became the principal issue after Senator Guffey, Pennsylvania, Democrat, urged regulation of the soft coal industry as a protection against wasteful mining practices and "unfair competition" among producers.

Guffey and Senator Neely, West Virginia, Democrat, cited supreme court decisions to support their contention that the bill would be held constitutional. It has passed the house.

Asleep 5 Years, Chicago Beauty To Have Birthday

CHICAGO, March 31.—(AP)—Patricia Maguire, who as a victim of sleeping sickness has hovered below the line of consciousness for five years, will be 32 years old tomorrow.

Except for a gain of about 20 pounds the passing years have brought little change to the pretty dark haired girl, who lapsed into slumber in February, 1932, and since has defied the efforts of medical science to arouse her.

"I believe she looks even younger than she did when she was taken ill," said her mother, Mrs. Peter Milroy, who has nursed the girl constantly in their suburban Oak Park home.

No special preparations have been made to celebrate Patricia's birthday. "It must be another day," said Mrs. Milroy.

MAN, 75, SHOT TWICE BY THROUSERS' BURGLAR

RICHMOND, Va., March 31.—(AP)—A 75-year-old man was near death with two bullet wounds in his chest today while police, with a hat as a clue, searched for a negro burglar they said shot him.

S. H. Hovins was shot near the heart and his nephew, H. Jamgotchian, 55, in the left forearm when they grappled with the intruder, who awakened them early today as he searched their trousers in a Main street bedroom.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes these good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. U. S. OWNERSHIP OF BANKS ASKED

House Group Seeks To Make
12 Reserve Units Federal
Property.

WASHINGTON, March 31.—(AP)—A group of house Democrats organized today to get behind legislation for federal ownership of the 12 Federal Reserve Banks.

Representative Bingerup, of Nebraska, elected executive secretary of the group, said the 88 who attended the meeting would constitute a steering committee and all would be listed as cosponsors of the bill introduced.

"We want federal ownership of the 12 Federal Reserve Banks in order

to control the volume of money and credit," Bingerup said. "In this way it will be possible to avoid inflation and deflation."

Getting down to "BRASS TACKS"

There's nothing
like GAS for

BROILING

Gas gives you the intense heat needed to brown meats so fast that loss of juices is prevented. Full flavor is saved.

ROASTING

Gas gives you the oven ventilation which produces crisp, juicy roasts. Excess moisture is allowed to escape, preventing that flat "steamed" flavor.

BAKING

Baking requires an unlimited range of oven temperatures evenly distributed. That's why Gas assures light, evenly browned cakes, pies and breads.

FRYING

Perfect, speedy frying requires instant high heat—even spread of heat under the skillet—numberless heat variations. Gas gives them all!

BOILING

Faster! Gas brings foods to a boil in 2-3 or less the time of other fuels. Because it is more flexible, it gives you the exact degree of heat you need.

SMITTY—BIG TALK

CONSTITUTION'S DAILY CROSS WORD PUZZLE

HIGH LOON

By RUBY M. AYRES

WHAT HAS GONE BEFORE:

Heather Aston, now 34, has reared three brothers and three sisters, the youngest of whom, Bobbie, cost their mother her life. Heather started her sacrifices when Bobbie was a year old, telling Bruce Logan, who was leaving England for South Africa, she could not marry him and desert her "children," and Caesar, as they affectionately call their pompous but inefficient father. Paul, married to a wealthy woman, doesn't see his family. Betty recently married the well-to-do Stephen Miller. Vilette, with a theatrical company in South Africa (Pony is her stage name), writes that she's coming home and has met "the man," who is coming on the same ship. When Heather meets him she meets Bruce Logan. For a time she avoids intimate talk, but getting her alone he asks why she has changed. Although admitting to herself she loves Bruce, she asks if he doesn't know Vilette loves him. Bruce asks her to marry and return with him to South Africa; she says the family can't spare her. Henry Mathews, a bachelor neighbor, offers Heather's family his seaside cottage at Weymouth. Vilette goes to a dance with Paddy Jepson, an aviator, drinks too much and asks Heather not to tell Bruce. Effie, the youngest sister, overhears Vilette accusing Heather of coming between her and "a man she used to love." Not knowing what is wrong, but feeling that the family is always imposing on Heather, Effie goes to Bruce for advice. Answering Effie's question, he says he knows Heather's old sweetheart loved her. NOW GO ON WITH THE STORY:

INSTALLMENT XVIII.

And so after a great struggle with herself Heather wrote. Betty replied that she was terribly sorry to hear that Caesar had been ill of course, but Heather would understand that she could hardly expect her husband to foot the bills. "I've been married such a short time," was how she put it. "And although Stephen is a perfect darling, I can't very well ask him to hand over such a sum, can I? He didn't marry the family, did he?" Paul was no more encouraging. He said he could manage "a tenner" but not more, and that he was certainly not going to ask his wife for money. Heather put both letters in the fire and tried to forget them. And only two of her friends and acquaintances seemed to offer the slightest hope of assistance—Henry Mathews and Bruce. But either or both of them would help her she knew well enough—something in her soul shrank from approaching Bruce, or of letting him share her distress.

She was not so afraid of Mathews, and more than once when he called at the house—which he often did, she tried to find the courage to ask him for help. She even rehearsed what she would say, but each time the little speech seemed to ring less true. Night after night she lay awake racking her brains for ways and means. In the end, when the nursing home had rendered its account for the third time, with an added footnote, "Kindly settle," she made up her mind to speak to Henry Mathews.

She thought afterwards that he must have guessed her predicament for with her first stumbling words he broke in cheerily: "Don't say a word more, there's no need. . . . I've been on my mind a dozen times to ask you myself." He drew a check book from his pocket, and when she would have spoken he waved her into silence. "Not a word, I'm only too pleased to do it for you," he said, and he wrote and signed them in an awkward, sprawling hand, and laid them on the table.

Heather looked at him, her cheeks crimson. "I'm so ashamed," she faltered. "But . . . I simply don't know where to find the money. You do believe that I'll pay you back, don't you? I've never borrowed money from anyone in all my life, and I'm so ashamed, but you see—"

Mathews' honest face took color.

WORLD'S GOLD MONEY and BULLION

The world's known stock of gold money and bullion could be contained in a 30-foot cube.

Most of the world's gold, however, has been obtained since Columbus and his Spaniards sailed to the New World not quite four and a half centuries ago. Hundreds of millions of ounces—thousands of tons—have been mined since that time. In early days Mexico and Peru sent a heavy stream of gold to Spain.

In the present period of history South Africa leads in the amount of gold produced. South African mines supply over one-third of the world's newly mined gold. The rich output, strangely enough, is largely from low-grade ore. The Rand mines, most famous in South Africa, produce ore containing only from \$6 to \$12 worth of gold in each ton mined. That, however, is not the lowest-grade ore which can be worked with profit. Mines on our own continent have been kept busy while the ore was

tempt, to throw herself out of the

nursery window. "Well, she's older and wiser now," Vilette was still the same in spite of her veneer of worldliness and pretended indifference to everything. Heather thought again of Henry Mathews—and knew that if she married him, she would free Bruce of any imagined duty to herself. Then surely he would turn to the girl who so plainly loved him. "You'll make me a good wife, I can promise that I will make you a good husband."

Just like that! Without any preamble. And without giving her a chance to speak, he went on. "I know what you're going to say—that you can't leave your father and the family, and I'm not asking you to marry me, and we'll all live together up at my place. It's big enough for a dozen young people—our place it will be if you'll say yes. I like young people, and I'll be just a jolly family party as you are now, with the only difference that you'll be my wife." He paused, but still she could find no words, and he continued, "I've wanted to ask you for some time. I admire you more than anyone I know. You're a good girl, Heather, and I'd like to make you happy." His voice was a little unsteady.

"I'm not a bad sort," he said, "and I'm well off, if that will be an inducement—not that I think you're influenced by money, though I should like to know that you had the spending of mine. Your father will be pleased, too. I think there's the garden, and we'll get another car, so that there'll be two—enough for us all to rock in when we want a holiday. And you'll be mistress of the house—what do you say, my dear?"

She said shakily, "I can't say anything—I'm so amazed—I can't believe. . . . You've always been so kind to me, so generous—but . . . but I don't love you. . . ."

He answered humbly, "I'm not the sort of man a girl would fall in love with, I know, but . . . well, perhaps in time you'd get fond of me—"

She said breathlessly, "I am fond of you—you've been such a wonderful friend. I can't say that for all you've done for me—for Caesar—for all of us, but—"

He interrupted her. "Don't answer now, anyway. I always like to think things over myself, and I'd like you to do the same. We won't mention it again until you want to, and we won't let it make any difference except that you'll know, if ever you feel you can't say 'yes' and I'd like to have her before he departed as if nothing unusual had been said, and leaving the signed checks on the table."

Heather stood staring down at them feeling as if she were in a dream. "If you'll make me a good wife, I can promise that I will make you a good husband," he said, and she remembered the words with a feeling of tears and laughter.

Marriage with him would bring so many advantages to them all, she knew. It would mean the end of financial worries and assured home; it would mean transferring a heavy load from her own tired shoulders to another who would be both kind and capable of bearing it. And it might mean another year—perhaps, at a public school—for Bobbie, and afterwards a good start in business. It could make all the difference to Effie's future, and possibly it might lengthen Caesar's life.

She saw all these things with fatal clarity, even while she never gave a thought to herself, or to what it would mean for her.

Since the first day of her father's illness she had avoided Bruce by every means in her power, perhaps, a little too obviously, but she had felt it to be the only possible thing. Her extreme sensitiveness warned her that if it was true, as Vilette declared, that he was merely sorry for her and influenced by their boy and girl love affair, she had but deepened his pity when she had broken down and had sobbed her heart out before him.

And apart from her own pride, there was Vilette to consider—Vilette who just lately seemed to be so wild and reckless, as if she were flinging defiance at someone who was hurting her. Heather knew Vilette well enough to see beneath her lighter and flippancy, and to know that she was suffering.

What would become of Vilette if she could not get what she wanted? She was so witty and unbalanced that she might be capable of any foolishness. Vilette was far from all right, and it frightened Heather to remember how once, when her sister was still almost a child, she had, in a sudden rage of anger and disappointment, threatened, and had even made an at-

SHINING METAL CALLED "GOLD."

How much gold has been taken from river beds, or from the world's mines? That is not an easy question to answer, for we do not have careful records going very far back. Thousands of years ago people sifted gold from gravel, or mined it from the hills. Ever since, the work has been going on.

The United States and Canada rank next to South Africa in output of gold. During the past ten years Canada has led the United States several times

GIRL ADMITS PRACTICE FOR COUNT SHOOTING

French Magistrate Hears of Interference With Mussolini Romance.

PARIS, March 31.—(P)—Dark-haired Mme. Madeline La Ferriere told an examining magistrate today she trained her trigger finger in a shooting gallery before she shot Count

Charles de Chambrun March 17 at the North station. Just as De Chambrun was boarding a train, she sent a bullet into his thigh to avenge what she declared was interference with her friendship with Premier Benito Mussolini. A member of De Chambrun's embassy staff, Mme. La Ferriere asserted, disclosed confidences concerning her previous friendship with a former French foreign minister and thus disrupted her association with Il Duce. In Rome, she said, she had taken poison because of the broken friendship, but friends intervened to save her life. While she was convalescent, one of Mussolini's secretaries brought her flowers and letters.

It was decided, Mme. La Ferriere said, to get her out of Rome before General Hermann Wilhelm Goering, No. 2 Nazi, arrived for an official visit. Then she received a railway ticket to Paris and 25,000 lire (about \$1,250).

FARM TENANCY BILL MEETS WITH DEFEAT

House Agricultural Body Votes 13 to 11 Against the Measure.

WASHINGTON, March 31.—(P)—An administration proposal that the government experiment in assisting tenants and sharecroppers to buy farms on easy credit terms met defeat today in its first congressional test. The house agriculture committee voted 13 to 11 against authorizing the secretary of agriculture to spend \$50,000,000 annually to buy land for resale to tenants on terms that would give them as long as 45 years to pay. Seven Democrats and six Republicans opposed the proposal.

Vote Follows Conference.
The vote closely followed a conference in which President Roosevelt advised Chairman Jones, democrat, Texas, and several other committee members that farm tenancy legislation should not provide for huge initial expenditures.

The land-buying and resale proposal was one of three tenancy aids suggested by President Roosevelt in a message to congress by Secretary Wallace at committee hearings and by the President's special tenancy commission. Wallace, commenting at a recent hearing on a tenant land-buying bill, said "A measure of this general nature would be a very valuable forward step in checking the growth of tenancy."

He urged, however, that it be accompanied by two other approaches—rehabilitation loans and retirement of land unsuited for cultivation.

Opposing Vote.
Democrats who voted against the proposal were Representatives Fulmer, South Carolina; Polk, Ohio; Kleberg, Texas; Coffee, Nebraska, and Lucas, Illinois. Republicans against were Hope, Kansas; Tobey, New Hampshire; Kinzer, Pennsylvania; Hoffman, Michigan; Lord, New York, and Andersen, Minnesota.

Those who voted for the proposal were: Jones, Dorey, Mississippi; Mitchell, Tennessee; Flannagan, Virginia; Beam, Illinois; Cummings, Colorado; Biermann, Iowa; Owen, Georgia; Cooley, North Carolina, and Nelson, Missouri, all Democrats, and Boileau, Progressive, of Wisconsin.

Child Bride Says Bicycle, Clothes Led to Marriage

BRADENTON, Fla., March 31.—(P)—The lure of a promised bicycle and pretty clothing and the desire to provide a home for her parents led 12-year-old Martha Nell Revell into marriage with a neighbor five times her age, she told circuit court here today.

She asked the court to annul her marriage to Chandler L. Revell, 57, and a grandfather, which lasted just five days. A formal bill filed by Dewey A. Dye, an attorney employed by her sister, Mrs. Ruby Hendrick, of Jacksonville, said the child was led into the wedding by threats her father would be discharged from a crate mill where Revell was foreman. In a desire to save her parents from poverty and to gain a bicycle and the pretty clothes to which she was not accustomed, Martha Nell "was deceived and frightened by the threats and promises of the defendant (Revell) and yielded to his threats and persuasions," the complaint alleged. The elderly suitor promised, her attorney continued, to live with her "as second wife," and agreed not to consummate the marriage. Martha Nell and Revell were married March 20. Five days after they were separated and Martha Nell went to Jacksonville with her sister, Mrs. Hendrick. Revell left the employ of the crate company shortly afterward.

'RICHEST' WOMAN WEDS BROKER AS THIRD MATE

TALLAHASSEE, Fla., March 31.—(P)—One of the richest women in the United States, Marie Josephine Hartford O'Donnell Makaroff, of New York and Palm Beach, was married here today to her third husband, Barclay K. Douglas, New York broker and aviation enthusiast. She gave her age as 30 and Douglas listed his as 26. County Judge Walker performed the ceremony at the suburban estate of State Senator William C. Hodges. The couple wore street clothes and left immediately after the ceremony on a motor trip to the Pacific coast.

The bride is the daughter of Edward V. Hartford, vice president of the Great Atlantic and Pacific Tea Company. She is reported to have an income of \$500,000 a year.

GREEN'S ESTATE ROW WILL SHIFT TO MIAMI
DALLAS, March 31.—(P)—Old timers of Texas completed their tales of the life of Colonel E. H. R. Green today and the special hearing in the financier's will dispute, after one more day of technical testimony, will shift to Miami, Fla.

Special Commissioner Prime, of Lake Placid, N. Y., said he would listen to opinions on laws bearing on the estate dispute here tomorrow before adjourning court. Colonel Green's will, filed in New York, left the entire estate to his sister, Mrs. Sylvia Wilks.

SEAMAN OVERPOWERED IN ATTACK ON WOMAN

Screams From Museum Rest Room Attract Policeman; Sailor Arrested.

NEW ORLEANS, March 31.—(P)—A 22-year-old seaman was overpowered today by two citizens and a policeman in the women's dressing room of the Louisiana State Museum as, they said, he was attempting to attack a woman visitor. The man was listed as Harry Miller Melvin, with no local address. James J. A. Fortier, curator, said that a short time before an 18-year-old girl employee of the National Youth Administration reported an unidentified man had attempted to attack her in the Spanish-American War room where she was working. Her screams frightened him away. Patrolman Welsh, summoned by the Fortier, was entering the building when a woman's screams were heard in the dressing room. He, with Jerry

Message Too Late To Avert Tragedy

AURORA, Ill., March 31.—(P)—The Easter card for which Mrs. Jeanette Martin, 25, waited in vain was written the same day she strangled her three small daughters and hanged herself, it was disclosed by her husband, John, 25, yesterday.

Mrs. Martin took her daughters to church Easter morning to have them baptized, before committing the act. She left a note saying, "Johnnie has three children and can't send them a card on Easter." Martin learned of the tragedy yesterday, while en route home from the southwest. On Easter, he said, he wrote a card telling his wife and daughters of his luck in finding a job.

Morgan and Frank L. Barbackof, who were in the courtyard, battered in the door and overpowered the seaman. The woman was found on the floor, the officer reported, with the man standing over her. Melvin was charged with assault and attempted criminal

BOYS! GIRLS!

THE ATLANTA CONSTITUTION OFFERS \$55.00 RANGER BICYCLES FREE

THE ZEPHYR FOR BOYS

For 40 years the Ranger has been known as the outstanding bicycle of America—famous for quality, performance, looks, materials and workmanship. The Atlanta Constitution has selected the Ranger "Zephyr" models for boys, the highest grade machine made by the Mead Cycle Co. The Ranger you earn will be completely equipped. Every bicycle is guaranteed for five years.

The Ranger Zephyr is beautifully streamlined with roomy tool tank to hold batteries, tools, etc. It is finished in beautiful Ranger golden brown and white with black hairline stripes. Full balloon tires with inner tubes are included. The Rims as well as all other bright parts are chrome plated to prevent rust. The beautiful new Delta Silveray full streamlined bullet design Electric Lamp is mounted on the front fender, and Delta Electric Horn, Rear Carrier, Parking Stand, Red Danger Signal and Tools complete its equipment. The saddle is genuine grain leather over thick sponge rubber. Lobdell rims, the best and strongest made, are standard equipment.

Here is your chance to earn one of these magnificent bicycles without one cent of cost. This offer is good in Atlanta, its suburbs, and any town where The Constitution maintains carrier service.

Apply in person to the Circulation Department of The Atlanta Constitution, Alabama and Forsyth Sts., or mail enrollment blank from this announcement. Full details, complete instructions, and helpful suggestions will be given you.

THE ACE FOR GIRLS

The Ranger "Ace" model is exactly like the boys' model except that it has a ladies' drop bar frame construction instead of top bar, and this eliminates the tool tank. The saddle is soft and roomy, made of genuine grain leather over thick sponge rubber. The rubber pedals are dainty, ladies' size. Tires are double size balloons on chrome-plated drop center steel rims. Complete equipment is included—Silveray bullet design Electric Lamp, Delta Electric Horn, Rear Carrier, Parking Stand, Red Danger Signal, tools, etc.

SECRETARY WALLACE URGES COURT REFORM AS BAR TO DEPRESSION

Present Judiciary Raised
Barriers to Roosevelt's
Plan, He Asserts.

AUGUSTA, Ga., March 31.—(AP)—The south was asked today by Henry Wallace, secretary of agriculture, to support President Roosevelt's court program as a means of controlling the nation's course "before it is too late." Addressing an audience at a cattle show following a parade of more than 10,000 4-H club members from Georgia and South Carolina, the secretary said failure to reorganize the supreme court would set the nation adrift again into economic depression.

He reviewed steps taken to improve southern agriculture, and said federal efforts to bring about better farming methods were endangered by court invalidation of the President's program. He mentioned the court proposal in his address, leading up to it with a discussion of general steps looking to continued improvement of southern agriculture—better farming methods, maintenance of forest markets, soil conservation and world management.

Barriers in the Way.
These steps, he said, are endangered by barriers which the courts have placed in the path of President Roosevelt's social and economic program.

"The barriers raised in the courts of the United States against the continuance of such action should be removed," he declared. "Unless they are removed, the nation will drift again as it did in the years before 1933."

He said a prevalent theory in the courts' decisions has been that the people of the country have no right to deal with the problems of agriculture and of business.

"The courts and especially the supreme court," he added, "have interpreted the constitution to mean that these problems are merely local and outside the scope of the government, although in fact nothing is clearer than their regional and national nature."

The secretary said the future of southern agriculture depends upon improving soil fertility, but that there are certain natural handicaps to such a program, among them the sloping land, heavy rainfall, long cultivation season and scarcity of snow and frost.

HENRY WALLACE.

to provide a protective cover during winter months.

He predicted a sustained farm income for the south if farmers would join the Agricultural Adjustment Administration in its soil conservation program. No other section, he said, has more to gain.

Urges Forest Protection.
He pointed to the forests as one of the south's greatest potential sources of income, but urged attention to safeguards against depletion of the timber areas.

Wallace commended efforts to build up the south's cattle industry, saying one of the section's greatest needs was diversification, but he advised stockmen to guard against a too sudden growth of the cattle industry. Present high prices, he said, are due to the droughts of 1934 and 1935.

The nation, he said, is returning to a sounder tariff policy through the reciprocal trade agreements, and there must be "no surrender on the issue" of progressive moderation of tariffs.

A parade of approximately 10,000 4-H club members from 24 counties in Georgia and South Carolina preceded the secretary's address.

Heading the parade, which marked the opening of the second day of the show and sale, were the Harris Island marine band, and several truckloads of prize cattle on display.

PLAINTIFF WINS AWARD IN TORNADO-FIRE CASE

Case Is First of 23 Listed for
Trial in Gainesville
Court.

GAINESVILLE, Ga., March 31.—A Hall county superior court jury, after deliberating two hours, this afternoon returned a verdict in favor of Arthur E. Smith, in a suit against the Aetna Insurance Company growing out of fire damages to a building owned by Smith following the tornado of last April. The amount involved was \$2,500.

The case was the first of 23 similar suits on the calendar for the January adjourned term of court, which resumed Monday, trial consumed two and a half days.

The litigation hinged about the clause in a standard fire insurance policy which voids the policy if all or part of a building falls prior to a fire.

A motion for a new trial is expected to be made.

Judge B. P. Gaillard Jr., presiding, adjourned court this afternoon after announcing an amendment by plaintiffs in six other cases will be filed, followed by a demurrer by the defendants, and that the cases involved will be decided by the bench, since only a matter of law is in question.

Trial of another suit will begin tomorrow morning Judge Gaillard announced.

Margaret Sullivan says Luckies are the answer for her throat

"I am not sure which is more critical—a Broadway audience or the movie microphones. At any rate, whether in Hollywood or New York, an actress has to be certain that her performances are always up to the peak. And that means being careful of the voice and throat. That's why, though I enjoy smoking thoroughly, I try to use judgment in the cigarette I choose. When I first began smoking, Luckies were my choice, because I found this light smoke advisable for my throat. And that's as true today as ever. Luckies are still my standby."

Margaret Sullivan

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Sullivan verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

Duke and Duchess of Kent Given London Dinner by Former Atlantan

By Sally Forth.

ATLANTANS who remember Mrs. Ormond Lawson-Johnston, of London, as the former Betty Coyne, of Thomasville, who also lived in Atlanta, will be interested to learn of her social conquests in England. Previous to the departure of the Duke and Duchess of Kent to visit the Duke of Windsor in his self-imposed exile in Austria, Mr. and Mrs. Lawson-Johnston entertained at dinner in honor of these royal personages at their home at 23 Cadogan place in London. The following clipping from a London newspaper has particular significance to friends of Mr. and Mrs. Lawson-Johnston:

Kent, who will be leaving London shortly, are making the most of what spare time they have to meet their friends or to see new

films and cabarets. Last night they were the guests of Mr. and Mrs. Ormond Lawson-Johnston at 23 Cadogan place.

"A dinner party was followed by the private showing of a new film from America, 'The Three Smart Girls.' The heroine of this, Miss Deanna Durbin, is 13 years old. The film will be shown in public shortly.

"The Duchess wore her large diamond and sapphire earrings with a dress of creamy flesh-tinted crepe. The hostess was in a black sequin dress. At this party was Lady Cambridge, in a black dress with a cherry-colored sash. She is leaving for Monte Carlo today.

"Lord and Lady Willingdon, Lord and Lady Winchilsea (Lady Winchilsea wearing a pastel-blue dress), Lord and Lady Greville, Lord and Lady Portarlington, Lord and Lady George Cholmondeley and Lady Leigh were also guests."

EMMAKATE VRETMAN left yesterday morning bright and early (4:30) for Charlottesville, Va., where she is going to visit her aunt, Mrs. Winship Nunally, and she plans to keep the road between Charlottesville and Lexington busy, for Emmakate's been invited to attend the dances at the University of Virginia. From Wednesday through Saturday there will be a perfect round of dances and parties, and two famous orchestras will furnish the swing music.

Sunday the young Atlanta belle continues her trek northward, stopping at Larchmont, N. Y., lovely Westchester place, where she will visit her sister Isabel's godmother, Mrs. Kenneth Watkins. Emmakate will be entertained at lots of social affairs during her short visit, and then she will go to Brightwater, L. I., to be the guest of Dorothy Stephens.

West Point, with its gala week-end festivities, will be her next destination, and then Emmakate will enjoy several days in New York with a cousin who lives there. Before returning home the popular young southerner will spend a day or so in Greenwich, Conn., with a friend. All these elegant visits will keep Emmakate away from home activities two weeks.

SEEDS DO TALK

So Says

Dixie Sunshine Marigold

"I came to America from Cuba, establishing my residence in a garden near Tampa, Florida. The gardener was impressed by my all-double, golden yellow, chrysanthemum flowers—and pointed me out to his friends with pride.

"Now, this man was a customer of Hastings, and sent some of my blossoms to them, offering to supply seeds at a tremendous price. You can imagine how flattered I was when Hastings accepted the order.

"For several years I stayed on Hastings' Farm showing improvement under their careful breeding work each year.

"Determined not to disappoint my sponsor, I blossomed forth with all the glory I possessed, and when entered in the 1936 All-America Trial competitions, I won the Award of Merit with flying colors."

Plant a package of Dixie Sunshine Marigolds for the best results and magnificent display. You won't regret their space in your garden.

Miss Frances Foote Hoyt Weds Thomas Shropshire at Home Rites

Characterized by beauty of appointments and centering wide social interest was the marriage of Miss Frances Foote Hoyt and Thomas Shropshire Jr., which was solemnized yesterday at high noon at the home of the bride's parents, Mr. and Mrs. Frederick Augustus Hoyt, on Peachtree Battle avenue. The Rev. W. W. Memminger, rector of All Saints Episcopal church, officiated in the presence of the immediate families. The ceremony was performed in front of an improvised altar of palms arranged in the living room. Placed at either side were large baskets of Easter lilies, flanked by seven-branched candelabra holding burning white tapers. The bride couple knelt on a white satin prie-dieu. Baskets of Easter lilies were used as decoration throughout the handsome home.

The bride had for her maid of honor and only attendant, her sister, Miss Julia Dancy Hoyt, who was lovely in a model of brown flowered chiffon, worn with an off-the-face hat of brown straw and a corsage of orchids and valley lilies.

The bride was given in marriage by her father and they were met at the improvised altar by the groom and his best man, his brother, Charles Lewis Shropshire. The bride's blonde beauty was offset by her imported suit of Robroy blue, with short jacket trimmed in gray fox fur. She wore a

hat of gray tile straw, trimmed in blue and other accessories of gray. Her costume was completed by a corsage of orchids.

An informal wedding breakfast followed the ceremony. The bride's table was overlaid with an imported lace cloth and had for its central decoration a crystal bowl and crystal horns of plenty filled with valley lilies, while gladioli and swainsons, The beautifully embossed white bride's cake and silver candelabra holding white tapers were accessories to the table decoration. Suspended from the chandelier above were wide streamers of white tulle tied in a lily of the valley design in a triple bow.

Mrs. Hoyt, mother of the bride, wore navy blue silk with a dyed alençon lace top and a corsage of valley lilies and valley lilies. Mrs. Thomas Shropshire, mother of the groom, wore a beige suit, trimmed with brown galle, a brown straw hat and a corsage of roses and valley lilies.

The bride and groom left later for a wedding trip to Cuba, Honduras, Panama and other points of interest. After May 1 they will establish residence on Peachtree road, and will be extended a cordial welcome into the younger married contingent of the city.

JOHN BLAKE PASSES AT RESIDENCE HERE

Founder of Southern Belting Company Lived Here for 50 Years.

John Blake, long-time resident of Atlanta and retired businessman, died yesterday morning at the residence, 1565 South Gordon street, at the age of 91.

Mr. Blake, who was a native of Quebec, Canada, came to this city more than 50 years ago. He founded the Southern Belting Company in 1890, and was superintendent of the firm until 1917, when he retired.

He was active in church and civic affairs, and a prominent member of the Capital Avenue Baptist church.

Surviving are three daughters, Miss M. A. Blake of Boston; Mrs. T. F. Snyder and Mrs. C. E. McDonald, both of Atlanta; four sons, F. P. Blake, of Boston; H. J. Blake, of Alexandria, La.; G. J. Blake, of Lufkin, Texas; and W. E. Blake, of Boston; a brother, Richard Blake, of New York, and seven grandchildren.

Final rites will be held at 3:30 o'clock tomorrow afternoon at Spring Hill, with Rev. H. Major and Mr. A. Cooper officiating. Burial will be in West View cemetery.

CHAMBER LUNCHEON TO HEAR CHERMURIST

"An Industrial Renaissance Coming to the South" will be the subject of an address to be delivered at 12:30 o'clock tomorrow by Carl B. Fritzsche, managing director of the Farm Chemurgic council, to members of the Atlanta Chamber of Commerce at their weekly forum-luncheon at the Atlanta Athletic Club.

Mr. Fritzsche, a pioneer in the farm chemurgic movement, is in this section helping to set up the Georgia Farm Chemurgic council, which will meet in Macon on April 9 and 10.

A stranger's open coat envelopes you. This seems to be the open season for men's coats. But we're against ever having an open season for them. When it's too warm for a man to button up his overcoat, he should go without one. And we'll tell you why. When a girl stands in a crowd and sees a crowd of elevators, she doesn't like to have a lot of strange men's coats embracing her. She doesn't really like to share a man's overcoat at all unless it's a man she knows terribly, terribly well. And yet at this time of the year a girl is forced to share all sorts of men's overcoats. It really isn't fair.

Perhaps the thing for a girl to do, when she finds herself enveloped this way, is to untie her scarf and offer him one end of it. She could say, "As long as you're giving me part of your overcoat, can't I offer you a part of my scarf?"

But really there's not much she can do except to urge her own men folk to keep their overcoats to themselves when traveling in crowds. JEAN.

Bride-Elect, Visitor Feted at Luncheon.

One of the loveliest social affairs of the week was the exquisitely appointed luncheon at which Mrs. Frank Fleming and Miss Nellie Hightower were hostesses yesterday at the home of Mrs. Fleming on Peachtree road, honoring Miss Annette Hightower, whose marriage to David McCullough will be an important event of the Easter holidays with Miss Lewis parents, Mr. and Mrs. E. S. Lewis, at their home on Peachtree circle.

INJUNCTION IS SOUGHT IN LAND SALE ACTION

Seeking to prevent the Chattahoochee Brick Company from paying a \$5,200 commission to J. L. McLendon for negotiating a land sale with Fulton county, T. G. King and R. F. Bishop filed a petition for injunction in Fulton superior court yesterday. Hearing was set for Friday before Judge E. D. Thomas and a temporary injunction was granted.

The petitioners allege they hired McLendon to aid them in selling the property known as the Chattahoochee Brick Company land to the county but that now he is claiming the entire 10 per cent commission. The property was sold for \$52,000.

Mrs. Worcester Gives Luncheon at Home

Mrs. Edward Worcester Jr. entertained at a buffet luncheon yesterday at her home on Peachtree road for a number of visiting celebrities here with the St. Louis Symphony orchestra. Honor guests include Oscar Johnson, chairman of the board; Albert Spaulding, famous violinist; Vladimir Golschmann, conductor; Scipione Guidi, assistant conductor and concert master; Arthur Gaines, business manager and secretary, and the first chair men of the orchestra.

The color motif of pink and white was carried out in the living room, and jongsils were used in artistic arrangement in the library. An exquisite Italian lace and cutwork cloth covered the table in the dining room, the table being centered with an antique silver vase filled with white lilies and peach blossoms and encircled by matching candelabra holding pink tapers. A silver coffee service graced one end of the table, and Mesdames Molcolm Dewey and William Elias poured coffee.

The music room was adorned with artistic arrangements of Easter lilies and peach blossoms. Assisting the hostess in receiving was her guest, Mrs. Maude Lacy, well-known writer and lecturer of St. Louis, and officers of the Atlanta Music Club, including Mrs. Thad Morrison, president, and Mesdames Mary Nelson Ream, Alex C. King Jr., Lillian Rogers Gilbreath and Miss Margaret Fraser, presidents.

After luncheon the guests strolled through the picturesque gardens of the hostess' home and were entertained informally during the remainder of the day.

AUGUSTA NATIONAL GOLF CLUB, AUGUSTA, Ga., March 31.—It was warm today. White, fleecy clouds moved lazily overhead. The flowers looked bright and soft in the sun and the green of the pines seemed deeper and darker.

Maybe you think a warm day means nothing. But it does in Augusta when the Masters' tournament is about to be played. A warm day here is like a raise in salary. It is like rest after toil. It is akin to that moment when the dentist puts away his drill.

The fourth Masters' tournament begins tomorrow. I went trudging around today with Patty Berg, the freckle-faced young lady from Minneapolis who is a name in women's golf. We followed Bobby Jones.

Miss Berg was fascinated. She had never seen Bobby Jones play before. I have seen amateur piano players look at Ignace Paderewski with their eyes popping. I have watched a struggling writer listen to a great author and I have seen a man with an aching hang-over watch the bartender mix that first drink early in the morning.

They all had something in their eyes that was in the eyes of this freckle-faced, refreshing American girl, Patty Berg, as we trudged after Jones.

She wagged her head very solemnly and said, "My, my, my, he's grand. I think he is the greatest golfer I ever saw."

I told her that the more I trudged about golf courses, breathing great breaths of fresh air, the less I know about golf.

"Well," she said, "the more you play it the less you know about it."

She looked at Jones and her eyes were big and there was that look in them. I told her some of the golfers thought Jones wasn't swinging well.

"Well," said the little red-head, "I wish I had that swing. I think they are crazy if they say he isn't a great golfer."

Mr. Berg, the fortunate father, came up.

"Say," he said, "this fellow Jones is the greatest golfer I ever saw."

I mentioned a few others.

"Forget it," he said. "Jones is Jones."

OUT OF THE WOODS.

Lawson Little was in the foursome with Jones. There were Jess Sweetser, Henry Picard, Little and Jones.

On No. 8 Little steered his tee shot into the rough and behind the trees at the left. It was a setting almost identical with one he made in winning the amateur at Cleveland the summer before last.

He got the ball out well and I walked over and said, "Well, that reminded me of Cleveland."

"Well," said Lawson Little, "I wish I had the swing I had then."

Golfers are curious. The better players all know about keeping that left arm straight. They know about shifting the weight from the left foot to the right. They know about bending the knees. They know about getting the very important hip movement in ahead of the down swing.

They all know that. But their games vary. They get into slumps. They slice. They steer shots. They push them. It's a great game. And a great teacher.

SARAZEN TALKS.

Gene Sarazen showed several reels of very fine movies at a party given last night by Cliff Roberts, an official of the club. Some of the scenes were at Pago Pago, a place made famous by the author, Somerset Maugham, and Jeanne Eagels, who starred in the play, "Rain."

We were talking about the tournament. Someone said that with Jones not counted as a real contender, the tournament was just another tournament.

"Well, I'll tell you," said Sarazen.

"I went out to play in Pago Pago. I hit a long drive. The caddy said, 'I never saw anyone hit a ball that far.' So I started to kid him. I said, 'Why, I'm a well-known American professional, Gene Sarazen. Didn't you ever hear of me?'"

"No, sir," he said, "the only person I ever heard of in America is Bobby Jones."

Sarazen is not betting on himself. Or on anyone else in golf. He never does. That is, he never has since 1920. That was when he was in Miami. A Boston sportsman was there and he fell to talking about a young Boston amateur named Jess Guilford.

The sportsman thought the boy was rather good. Sarazen wagered \$150 that the local pro, Chester Norris, would beat the amateur. Guilford won, 6 and 5. Since then Sarazen has not wagered on golf.

He does, however, select five men and predicts the winner will be one of them. Sarazen names Ralph Guldahl, Sam Snead, Harry Cooper, Horton Smith and Henry Picard.

I am sorry to report that the first part of this story is false. I have just learned that Sarazen has a bet on Snead. The West Virginian was 20 to 1 and that was too good a price for Sarazen.

TONY MANERO'S BIRTHDAY.

There is one very great trouble about being a sports writer. The association usually is with young people. The college football kids come and stay four years and a new crop comes on. The fighters and the ball players all are young.

And the trouble about me is that in traveling around with the athletes of the world, I think of them as being old and wise. Wise with the experience of the years. Today I was talking with Tony Manero.

He is the national open champion. You think of a national open champion as being, well, old and a man of years.

But Tony Manero will be just 32 years old Sunday, the final day of the tournament. That, maybe, is a hunch. I'd forgot the guy was here. And he may win the tournament.

A FEW BRIEF FACTS.

Jimmy Thomson and Sam Snead are paired together for the start tomorrow.

That puts together the two longest hitters in the game. The gallery will get a thrill out of that. Those boys can really give a golf ball a long, long ride.

Ed Dudley had a 68 today. Yesterday he had a 66.

The day before he had a 68.

"Gee," he moaned, "I'm playing all my golf before the tournament begins. I wish I could have those scores on Thursday, Friday and Saturday. I think I could do all right Sunday."

If the weather stays warm the McGill hunch on Jones to be in the money will grow stronger. I still like that hunch. I saw Jones sink a 20-foot putt on No. 9 today. He may surprise. I'm picking him to be in the money.

Harry Cooper today practiced with 10 new putters but went back to his original weapon. Lawson Little, incidentally, has used the same putter since he began playing tournament golf.

Sarazen is playing just poorly enough to get started on a break.

Big Favorites
In Noted Meet

The famous Augusta Masters' begins today with Bobby Jones cast as only a sentimental favorite. However, the strong backing of his admirers has lowered the odds to 14-1. The

money favorites are Harry Cooper, top center, at 9-1 odds, and Horton Smith, top right, quoted at 10-1. This is a scene of the gallery as it followed the play in the meet last year.

The tournament has become one of the most noted events in the world. This is its fourth running. Poor weather conditions have hampered meet. The outlook is brighter this time.

Riggs Beats Courts; Grant Plays Senior

Red Enloe Bows to Wayne Sabin in Three-Set Match; Quarter-Finals Today.

By Betty Mathis.

Opportunity has knocked three times, in defiance of the adage, but the many tennis fans in Atlanta do not seem to know it.

With the fastest field ever offered here in any tennis tournament, localities have the opportunity of seeing really remarkable play in early rounds at low cost. Attendance thus far has disappointed, but things should pick up this week end.

Malon Courts, who has drawn hundreds of fans as finalist in city and state tournaments playing against other local fry, could hardly get enough people out to cheer him in his fighting defeat at the hands of Bobby Riggs, ranking star and Davis Cup contender, 7-5, 6-4.

Today's matches, quarter-finals in singles and doubles, will bring together the same group of players which drew so well in the past. And the price will not be \$3.50 or \$5.50, admission charged at Southampton, Newport and Rye.

Bitay Grant, the idol of local thousands, will see what he can do with a man exactly one foot taller than himself, Walter Senior, of San Francisco. The match is set for 3:30 o'clock.

Arthur Hendrix meets Wayne Sabin at 2 o'clock, with Bobby Riggs and Elwood Cooke occupying the adjoining court.

Courts was in fine form for his match yesterday, playing as well as he has ever played. Riggs, highly favored, had to fight for his points and found himself more than once on the short end of the court.

Never more than one game ahead until the end of the first set, the little Californian was passed time and again by Courts, who hit the lines in all corners of the court.

Several times in the first set Courts was able to break the tricky service of America's No. 4 man. In the second set, he won his four games on his own service, while Riggs broke Courts' service but once.

Another local player, Red Enloe, former city public parks champion, was making the going difficult for Wayne Sabin, nationally No. 17, locally sixth. Scores were 6-2, 4-6, 6-0, with Sabin the winner.

Enloe's accurate acute shots from the net and chop shots from all parts of the court were his main weapon. Sabin's speed and drive drives were too much for the local man.

First round play in doubles saw the third seeded team of Art Hendrix and Walter Senior battle into darkness before they subdued the local J. T. Chambers-Harry Gault combination. Scores were 8-6, 5-6.

The two top seeded teams, Bobby Riggs and Hunt and Bryan Grant-Wayne Sabin, drew byes.

Other favored teams advanced as expected.

The doubles schedule is as follows: Hunt-Sabin vs. Courts-Marcum, 3 o'clock; Reese-Decker vs. Hendrix-Senior, 3 o'clock; Rusty-Cooke vs. Enloe-Hobbit, 4 o'clock; Bonware-Moore vs. Grant-Sabin, 4:30 o'clock.

General admission is 55 cents.

YESTERDAY'S RESULTS.
Walter Sabin, Hollywood, Cal., beat Red Enloe, Atlanta, 6-2, 4-6, 4-0.
Bobby Riggs, Los Angeles, beat Malon Courts, Atlanta, 7-5, 6-4.
Joe Hunt-Bobby Riggs, bye.
Malon Courts-Vernon Marcum advanced on default of Ted Zuber-Cody Laird.
Bryan Grant-Wayne Sabin beat George Silva-Harry Swift, 6-1, 6-2.
Arthur Hendrix-Walter Senior beat J. T. Chambers-Harry Gault, 8-6, 5-6.
Martin Rusty-Russell Cooke beat Count Bore-Bert Koss, 6-1, 6-1.
Red Enloe-Bobby Riggs advanced on default of Reg Fleet-John Oliver.
Bryan Grant-Wayne Sabin beat Mollie Williams-Frederick Chambers, 6-3, 3-6, 6-7.
Bryan Grant-Wayne Sabin, bye.

Rudy York Slated For Minors Again

LAKELAND, Fla., March 31.—Two star Detroit Tiger rookies, Rudy York and Frankie Crosetti, apparently face another season in the minors. "It's almost a crime to keep those fellows out of regular jobs," said Manager Mickey Cochrane, "but I don't see how we can get them on our club. On any other club in the majors they'd be stars."

PURPLES BEAT PETREL FROSH

Boys' High baseball team defeated Oglethorpe Freshmen, 11 to 6, Wednesday afternoon at Hermance field in a practice game before the opening of the season Friday afternoon at Columbus, Ga.

Captain Bob Smith, Holbrook and Murphy divided hurling for the Purples and kept 11 hits well scattered.

Boys' High hit consistently in the pinches, with McKinney's home run and two singles outstanding.

Hubbard hit best for the Freshmen.

Purple Swimmers Beat Smithies, 49-17.

Boys' High's swimming team defeated Tech High, 49 to 17, Wednesday afternoon in the Y. M. C. A. pool, winning six of the eight first places.

Honors were well divided with Dougherty, Miller, Bishop and Johnston taking first places for the Purples, in addition to the relays.

Highwater and Amons won the only first places for Tech High.

The summaries:
40-yard free style—Dougherty, B. H. 8; White, B. H. 8; and Helt, Tech High.
100-yard breast stroke—Miller, B. H. 8; Fugimire, B. H. 8; and Callaway, Tech High.
220-yard free style—Highwater, Tech High; Abbey, B. H. 8; and McDuffie, B. H. 8.
100-yard backstroke—Bishop, B. H. 8; Christopher, B. H. 8; and Bowden, Tech High.
100-yard free style—Johnston, B. H. 8; Highwater, Tech High; and Lyons, Tech High.
Fancy diving—Amons, Tech High; Abbey, B. H. 8; and Knight, B. H. 8.
180-yard relay—won by Boys' High, Johnston, White, Eisenman and Dougherty.

LOOKOUTS VS. NATS.

SANFORD, Fla., March 31.—(AP)—"California weather," as the Floridians call it, stopped the workout of the Chattanooga Lookouts again today while the players awaited a game with the Washington Senators tomorrow.

Jam Waddell announced he had decided to drop his proposed appeal to Judge Landis, asking that he be declared a free agent. Waddell is a product of the Cleveland farm system and he had expected to show that it was a Cleveland and not a minor league club contract he signed.

DARROW IN FORM.

BIRMINGHAM, Ala., March 31.—(AP)—George Darrow, veteran portlander who won 21 games here last year, was in almost midseason form today as the Barons regulars wallowed the Rockies, 6 to 2.

Darrow struck out six and gave up only four hits in his five innings on the mound. Hugh Casey, former Atlanta pitcher, pitched well for the Rockies, after the regulars had gained a big lead against Kinner Graf, Norman James and Jack Sanford led the regulars' attack.

PEBS ARE FAST.

LITTLE ROCK, Ark., March 31.—(AP)—Determined to take full advantage of his athletes' youth and speed, Manager Doc Prothro sent the Little Rock Travelers through a lengthy session in the sliding pits today.

"I believe we have the fastest club in the league," Prothro said.

He announced that Outfielder Hal Simpson, for whom the Travelers traded three players, has been returned on option to Marshall of the East Texas league.

YANKS DROP FOUR.

ST. PETERSBURG, Fla., March 31.—(AP)—Four players today were lopped from the New York Yankees roster as the world champions prepared for their exhibition junket to Texas. The players were Pitchers Vito Tamulis and Jim Tobin, Catcher Bill Baker and Outfielder Ernie Koy. All were sent to the Newark Bears, Yankee farm team, on option.

Manager Joe McCarthy said he would keep all other players until the season opens.

The Yanks wound up their stay in Florida with a 5-4 victory over the St. Louis Cardinals.

Lefty Gomez and Dixie Dean opened the game as opposing pitchers. Dean hurled the first two innings and allowed a hit, a run and two walks. Gomez allowed only two safeties in his five-inning stretch and fanned three.

TIGERS SLUG 'EM.

SARASOTA, Fla., March 31.—(AP)—The Detroit Tigers slugged out a 12-2 victory over the Boston Red Sox today for their fourth victory against six defeats in exhibition competition.

The Tigers got to Pitchers Johnny Marcum and Jack Wilson for 17 hits while Elden Anker and George Coffman, rookie from Beaumont, Texas, allowed the Sox only eight safeties.

AUGUSTA, Ga., March 31.—(AP)—On the eve of golf's nearest approach to a world series, 38 ranking professionals, seven amateurs and businessman competitor Robert T. Jones Jr. made up the entry list for the fourth scramble over 72 holes in the Augusta National tournament and \$5,000 in cash to the salaried players.

For the first time since Jones re-entered competition for this all-star battle inaugurated by the retired champion, the Atlanta lawyer was not a favorite in the betting.

Around the locker rooms a dozen or more players were given a chance to cop the big prize, but the consensus led to lanky Horton Smith, of Chicago, two-time winner here over the "ideal" layout designed by the late Dr. Alister MacKenzie.

Smith, one of the greatest putters in the game, was stroking his practice shots in great style and the odds say it will take putting to beat the field, the smallest in the four years of play.

SENSE SURPRISE.

Jones was a sentimental favorite where bets were being laid. Backers figured he might surprise this time and, as in the past, they put up a few dollars on the one-time golfing king. Few believed, however, the "grand slam" manufacturer of 1930 could regain the concentration that carried him to the heights.

The latest quoted odds listed Light-horse Harry Cooper, of Chicago, in the favored spot at 9 to 1, with Ed Dudley, of Augusta, and Smith second choices at 10 to 1. Jones was rated a 14 to 1 gamble against the field.

Bronzed Gene Sarazen, of Brookfield Center, Conn., winner in 1935 by virtue of his historic "double eagle," bit the end of a cigar and between puffs expressed belief 286 to 1 that he would take the top money of \$1,500 if weather conditions remained the same.

SUN SHINES.

In the face of a weather forecast for cold weather, the sun shone brightly today to give a semblance of hope for perfect playing conditions a stiff breeze continued out of the north-west and the outlook was for rising temperatures for the start at noon, eastern standard time, tomorrow.

Smith battled cold in 1934 to win the initial tournament with a 72-hole total of 284 and stroked through a rainstorm last year to overtake Cooper in a great rally and triumph with 285. Sarazen tied Craig Wood in 1935 at 282 and won the playoff.

Sarazen figured he had named the winner in selecting five players from the field. He listed Henry Picard, of Hershey, Pa., Smith who recently won the north and south open, Cooper, Sam Snead, of White Sulphur Springs, W. Va., the rookie sensation of 1936, and Ralph Guldahl, of St. Louis.

AT 14-1 ODDS.

Guldahl, Snead, Paul Runyon, of White Plains, N. Y., and Byron Nelson, of Ridgewood, N. J., were quoted at odds of 14 to 1 along with Jones, Dennis Shute, the P. G. A. champion, and Jimmy Thompson, of Chicago, were listed at 16 to 1.

Many good-sized bets were laid on Jones, forcing his odds down from 32 to 1 two days ago. Bobby stepped through a final warmup this afternoon for 18 holes with Lawson Little, of Chicago; Picard and Amateur Jess Sweetser, of Mt. Vernon, N. Y. He scored well, but like most of the others, played several holes and did not keep a score.

Other amateurs entered were John

CRACKERS BEAT

**Durham, Garland Give

Hits.**

PELICAN PARK, PANAMA CITY, Fla., March 31.—The Cracker regulars finally crashed through with a victory in the grapefruit league this afternoon, blanking the Panama Pelicans, 4 to 0, behind the combined five-hit pitching, of Bobby Durham and Lou Garland.

Panama City pulled a spectacular

tripple play on the Crackers in the third inning. Bobby Durham had single, Ed Mauldin and Maudlin had slapped one past short.

Then Emil Maillio lined a curving drive to first. Leatherwood, southpaw first baseman, made a brilliant one-handed catch, doled out a fly off first and rifled the ball to Tom Osley, Atlanta boy, tripling Durham off second.

The genuine tripple play was marked by brilliant execution.

This was a game of great fielding. The Pelicans pulled an unorthodox double play. The Atlanta boys on the Cracker base runners got caught in the chase.

The Pelicans had one double play. Peppers and Kitchin gave Atlanta 10 hits among them, but the Pelicans were not out of the woods yet. They were sufficient. The Crackers scored single runs in the second, fourth, eighth and ninth.

Then, suddenly, Durham pumped curves at the Pelicans in something akin to regular season form. He worked five innings and fanned 10 batters, but he was out of the park.

Durham allowed three scattered hits, while Garland gave up only two, one of which was off Chatham's shoulders. The boys took a bad pop.

The pitching of Durham was particularly impressive. He looks almost ready. Garland needs just a little

Famous 22d Infantry Regiment Is Stationed at Fort McPherson

U. S. Army Unit, Formed in 1866, Has Seen Service of Every Military Type; Has Proud History of Army Honors.

On April 6 the United States Army celebrated Army Day, designed to call attention to the general public to the activities and benefits of the organization. This is the second in a series of five articles written to outline the work and the history of the army in Georgia and the fourth corps area.

By WILLIAM G. KEY.

One of the nation's most famous regiments is stationed at Atlanta's army post, Fort McPherson. The regiment has seen service in practically every military excursion of the United States Army since the Civil War between the States, when it was formed in 1866 from remnants of other units that participated in that war.

The regiment was founded in 1885, although used from the beginning in subsequent actions provide one of the mainstays of the army. They found themselves in the line of battle of the Italian campaign, helping themselves to everything in sight in the way of food and drink. Then, in 1918, the regiment took part in the Meuse-Argonne campaign. The regiment was established complete control, organized a camp and placed all the liquor under guard. In 1920, the regiment established a relief station and provided rations to the people. In all, these three men furnished food and shelter to 3,000 people.

In Goldfield.

Until 1908 the company history is unrecorded beyond a note of duty at the Goldfield (Nev.) mine strike. In 1908 the regiment was sent to the 10th regiment in Alaska and served there for two years.

On the return of the regiment from Alaska, it was called for service on the Mexican border, shortly to be the

the military occupation of Atlanta. The post was constructed in 1867-68 on the campus of the Georgia Institute of Technology, then Spelman College, and named in honor of the barracks, in honor of Major General McPherson, who was killed near the site in 1862. The barracks at the present site was purchased and permanent barracks were erected for the post.

Stationed at the 373.3-acre post are the 22nd Infantry Band, headquarters and headquarters company of the 22nd Infantry Brigade and detachments of the fourth and fifth regiments of the 22nd service company, finance department, medical department and quartermaster department. The post is used largely in the routine work of the post and

Active War Service.
On August 3, 1917, the 22d Infantry, however, was called upon to furnish the main body of troops for the military police, headquarters train and the First Expeditionary division and later became famous as the First Division's "G.I. boys." The 22d Infantry officers were decorated for gallantry. These were Captain George F. Russell, who was awarded the Distinguished Service Cross, and Major William W. Yuill, first names cited in orders. Regimental Sergeant Major Patrick O'Leary and Sergeant William A. O'Neil, first sergeant, was the recipient of

ater became the first American governor general of the Philippines. The future president was colonel, General William Tecumseh Sherman who laid waste to Atlanta in 1864. In 1869 the 31st Infantry was incorporated into the regular army. For the next two years following this consolidation the regiment was continuously engaged in the construction of buildings for the army and the construction of the west. It participated in three Yellowstone expeditions, on which the personnel saw several times engaged in combat, suffering, however, few losses.

To New Orleans.

In 1871, the regiment was stationed at New Orleans. It was here that the Congressional Medal of Honor, the United States' highest honor, was given.

Service following the World War was in New York posts. The tour was generally quiet. In 1920, when a strike broke out at the offices of J. P. Morgan & Company in Wall Street, a company detachment was sent to Fort Jay, in New York harbor, in 20 minutes, assisted in re-establishing order throughout the district.

To McPherson in 1922.

In 1922 the regiment received orders for transfer to Fort McPherson. Only a nucleus was transferred and upon arrival in Atlanta it was reorganized.

pressed for the safety of the city caused the organization of the highlanders.

The now-famed Custer Massacre resulted in the dispatch of the regiment to the Indian field in 1876. There the fighting, however, and the fruits spent most of the time escorting wagon trains through the dangerous territory. Later the regiment saw plenty of service on punitive expeditions against the Comanches in the Ute, Apache and Navajo Indians, and in the Sioux uprising of 1890-91.

In 1894 the regiment was ordered to stop the Indian uprising spreading from Helena and Butte, Mont., to join their cohorts in Wash-

On rare occasions, such as the visit of President Roosevelt to Atlanta, the members of the regiment are seen in uniform, as they were at the funeral of a guard of honor. Otherwise they are just the men in khaki from the fort.

PRISON UPRISING FEAR BRINGS INVESTIGATION

BOSTON, March 31.—(AP)—The Boston Traveler says, in a copyrighted article, that state officials today were investigating the cause of a widespread disorder, distrust and unrest in the Charleston state prison and that

...commenting that the Spanish-American war was fought from Keogh to Forsyth, and reported that "in compliance with this order, six companies are distributed in the great canyon over a road so rough and full of curves as to make the ride memorable." The troops prevented the ... of the army.

Garrisoned in Nebraska, it was not until 1896 that the regiment assumed a garrison status after the year 1890. The regiment was garrisoned at Fort Crook, Neb., during there until the outbreak of the Spanish-American War. In February, 1898, the S. S. was sunk in Havana harbor. On

IL 18 the regiment was ordered to a scene nearer the expected battle. The 22nd Infantry, at the outbreak of war, the regiment took part in the taking of Santiago on June 22 the 22d infantry was the first to land to attack the Spanish at Daquiri. The regiment was its first engagement of the war at Daquiri, and here took the first Spanish colors. The 22nd Infantry participated in the capture of Santiago, and in August was returned to the United States, having suffered heavy losses. The 22nd Infantry was the first to be given the command, however, for in January it was ordered to Fort Crook to San Francisco, to the military convention which will be held at the first of the year. The executive committee will decide the location of the convention and work out program plans.

ARMY MAN IS RETIRED WITH RANK OF MAJOR

Warrant Officer Artemus Carter, U. S. Army, yesterday was retired and assigned to the rank of major after 32 years of service. He was enlisted in the army on January 15, 1902. Carter has served in the Philippine Islands, Mexico and France. He held the rank of

ing. Here they found the wild Malolos, whose rebels employed all manner of guile in whittling down the enemy by bush warfare. The regiment was one of the main battle units in the expedition, which finally routed the opposing rebel forces. Following the expedition they were ordered into Malolos to participate under the command of Major General Arthur MacArthur, Jr. Malolos was the insurgent stronghold, and was finally taken after a considerable hand fighting against the enemy who had never faced the fire of American troops, and who were consequently harder to subdue.

Against The Moros. Following this campaign the regi-

was sent almost immediately to the first northern expedition and during the next two years campaigning inspired in all of the following signs designed to subjugate the Indians and restore normal conditions. In 1892, when the expedition was returned to the United States for one year. Then, in 1893, it once more dispatched for service in the Philippines, where they saw action against the Moros. In the regiment was again returned to the United States. In April, 1896, while stationed at San Francisco in various posts, and infantry was called out when earthquake and resultant fire hit the city.
